

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 17 July 2020.

We recommend that you keep a copy of your representation for your own records.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Comments relate to Appendix B Settlement Statements – Buchan – New Deer

Comment 1. Page 334 "Vision", lines four and five; *"A path network is envisaged along the A991 which starts from Turfhill Road junction."* There is no A991: please clarify which road you refer to, and provide more details about the vision for the path network: where does it start/finish? What is the route? Can a plan be produced to show what is being envisaged?

Comment 2. Page 334 "Vision" lines seven and eight: *"There is an aspiration for a link road through the protected site P2 and joining the A981 with the A948 (Auchreddie Road East) to create a safer route at The Brae."* Please explain why an aspiration to drive a road through a protected area is included in the local development plan.

Comment 3. Page 336. OP2: Land at Auchreddie Road East
These are being sold as separate plots therefore please explain exactly how the site can contribute to the affordable housing policy. How can it be integrated into the development and delivered as part of the early phases of development when one house has already been built and the other plots are being sold separately for individual development?

Comment 4: Page 336. OP3: Land at Auchreddie Croft
"Allocation: 30 homes" The overall number of houses has decreased from 40 (in the previous plan) to 30 but the area of OP3 has been reduced by approximately one third. Please explain the decision to increase the housing density.

Comment 5: Page 336. OP3: Land at Auchreddie Croft
Line four: *"Pedestrian permeability should also be provided to Auchreddie Road."* What does pedestrian permeability mean? How will this be achieved?

Comment 6: Page 336. OP3: Land at Auchreddie Croft
Lines four and five: *"Public transport infrastructure should be provided to maximise service accessibility."* Please explain clearly what you mean by public transport infrastructure. Is this a bus stop or an interchange?

Reason for change:

Comment 1. Inaccurate road number and a lack of detail about the path network. A plan is needed to show where the paths will go.

Comment 2. Including an aspiration to drive a road through an area classed as protected is in conflict with the P2 protected land status which is *“To protect the landscape as a significant contribution to the character of the place.”*

Comment 3. There is no explanation as to how the H2 Affordable Housing Policy can be implemented when the site is actually seven separate plots.

Comment 4. There is no explanation for the increase in housing density in this new plan or how it can be achieved.

Comment 5. This is an unclear comment with poor choice of words and no idea given as to how it can be achieved.

Comment 6. An explanation is required as to what “public transport infrastructure” means. What are you actually talking about here?

It is not helpful to use words such as ‘vision’ and ‘aspiration’ and refer to concepts when the resulting narrative conflicts with actual policy. Can consideration be given to writing the document in plain English? This settlement statement contains many ‘in vogue’ words and phrases which are meaningless without explanation.
