

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 17 July 2020.

We recommend that you keep a copy of your representation for your own records.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Appendix 7D Settlement Statements Garioch, page 6 within "Settlement Features", regarding R1 reserved land for allotments in Blackburn, as shown in the map on page 9 of the same appendix. I wish to see this withdrawn as allotment/community space and to remain as open space as per council's vision to protect such space as an important amenity. Instead, I propose that a dedicated allotment/community space is incorporated into one of the proposed housing developments, in order to avoid losing an already established and well used green open space.

Reason for change:

This is the only open green space available close to the MTM housing development. By the council's own vision, it states that it is important to keep these spaces. Taking away a space used by so many people (not only those in the immediate vicinity), to give plots to the few, doesn't make sense and will disadvantage more village residents than it helps. It is a heavily used area for people to let their dogs exercise, regularly used by walkers and for children to play. In the winter children from all over the village come to sled down the hills when it snows. It is unclear if the path would remain open, but even if it did, with the allotments taking the green space there would be no open space for walkers to enjoy and children to play or dogs to be exercised, without travelling some distance on pavements. The other parks within Blackburn are too far away to let children of a certain age go to alone from the surrounding streets, as at least two involve crossing or walking next to a main road. It is nice to have an area where you can exercise and walk dogs, getting away from roads and pavements and have views over the surrounding countryside.

Given there are areas earmarked for future housing development in the Council Development Plan within Blackburn, it would make more sense for the allotment/community space to be incorporated into one of these, as part of the planning conditions for any developer. It could be more thought out and incorporated intelligently, without compromising current open space areas or causing potential issues to an established housing development, as the current plan would do.

Although access looks to be shown via Averon Park, if the Kinmohr Rise path did remain open, anyone with an allotment at the Kinmohr Rise end could park there for ease. It is a quiet cul de sac, with little provision for on street parking, meaning allotment users potentially parking over the end of driveways or parking poorly, impeding access to driveways. There is the potential for an increase in traffic into Averon Park and to some degree Kinmohr Rise, which raises the risk to the children who play in these historically quiet areas. Many people in both Averon Park and Kinmohr Rise moved there because they weren't through roads and so were much quieter than others. In both streets, some house occupants already park on the road outside their own homes due to lack of

driveway space, as do any visitors to their households, so any increase in cars trying to park, would exacerbate the lack of space. It is unrealistic to believe allotment users will hand carry equipment, plants etc to the site or that they will walk to them regularly, instead of driving.

In heavy rain, there is already an issue with large amounts of water running down the Kinmohr Rise path stairs and into the street, washing debris down. Will the council be able to guarantee that any changes to the landscape made by turning this land into allotments, will not adversely affect drain off and debris running into the street and consequently nearby houses.
