Aberdeen Local Development Plan 2020
Site R1 West Cairnbeg

To Whom it may concern.

I strongly oppose any development on this particular site for a number of reasons.

The site propose sits in the Cairngorms National Part and its views of Finella hill are outstanding, this development would severely restrict this view from my home [REDACTED] and that of many others.

The site proposed sits on some of the very best agricultural land in Scotland. As we have found out with the recent Covid 19 pandemic we need all the best agricultural land to grow crops and I think in the future we will need even more home grown foods.

We have several community halls in the near vasinity and as far as I can see none of them are operating very well, people do not support them, they may want them, but they don't support them.

Thank you for your attention
William W Tait
