FAO [redacted]

Thank you for your recent letter concerning the proposed development OP1 in Luthermuir.

I have lived at my current address for 14 years and during this period this plot of land has been used for grazing of sheep or growing of crops.

If development of this plot of agricultural land is permitted, how is it proposed to replace its current use. Will it be replaced nearby as reducing the amount of land available for agriculture is not conducive to an expanding population requiring food.

The road fronting my property is currently in a very poor state of repair and were the building of 31 houses to go ahead, the road would require upgrading.
