---

Good afternoon,

I am emailing to object to the restrictive & ridiculous zoning placed on Harlaw Park Football ground on Harlaw Road, Inverurie.

I have been involved with this football club for over 20 years as a player and now part of the first team management. As an Inverurie boy I came through the Colony Park boys club at each age group and then signed for Locos at the age of 16 something every local lad that has an interest in football would want to do or play at the highest level possible.

In the last few years the Highland Football League has worked hard and be granted a route to make a step up in to the professional Scottish Leagues Through the pyramid system. As part of this step up the Scottish FA have guidelines on stadium which would require upgrades in facilities. This facility is in some need at present for some upgrades and the overall presentation of the street.

Everyone at Inverurie Locos has the ambition to win the Highland League and make this step up to Scottish Leagues so our current squad can play at the highest level possible.

With a large percentage of our current squad local Inverurie lads surely you do not want to deny these guys the opportunity of playing at a higher level?

Over and above my comments above you have to consider what added business Locos could add to local businesses when they make the step up with additional support from opposition teams visiting Inverurie.

I look forward to hearing from you on this subject.

Steven Park
