

# PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

## **This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.**

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to [ldp@aberdeenshire.gov.uk](mailto:ldp@aberdeenshire.gov.uk) or send this form to reach us by 31 July 2020\*.

We recommend that you keep a copy of your representation for your own records.

*\*UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

# YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

**Modification that you wish to see** (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

## OP3 - Kintore

This site was previously allocated as site OP5 in the LDP 2017. This undulating site is located to the south of Kintore, and is contained by the A96 to the west, the Midmill Industrial Estate to the north and the OP1 development site to the northeast. A Masterplan will be required.

A new distributor link is required to the B987 with upgrades to the B987 and A96 roundabouts provided as required. An updated Transport Assessment incorporating an Access Strategy, Public Transport Strategy and Walking/Cycling Strategy should determine the extent of new infrastructure required.

There are a number of features of archaeological interest within the site, and the development will therefore need to take these into account and include appropriate mitigation measures. Strategic landscaping is likely to be required along the eastern boundary to soften the visual impact of development.

## OP4 – Kintore

This site was previously allocated as part of OP1 in the LDP 2017. A Development Framework for the wider Kintore East development (including sites OP1 and OP5) was approved in September 2013. A Masterplan for the employment part of the development (Midmill South East) was subsequently approved in November 2013. The site is partially developed. Further employment opportunities are available and should be in keeping with the scale and nature of the Business Park. A Flood Risk Assessment may be required. A buffer strip will be required adjacent to the watercourse on the northern boundary which should be integrated positively into the development. A landscape buffer is required along the southern boundary to soften the visual impact of development. Active travel routes should be promoted, particularly to the railway station. A new distributor link is required to the B987 with upgrades to the B987 and A96 roundabouts provided as required. An updated Transport Assessment incorporating an Access Strategy, Public Transport Strategy and Walking/Cycling Strategy should determine the extent of new infrastructure required.

**Reason for change:**

I have concerns over OP3 and the effect it will have on myself and family personal. We are adjacent to OP3. Our lives have already been impacted by the Industrial estate which is beginning to circle us.

We have on a number of occasions had Council (environmental) out to our house to see the affect the lighting has on our home. Our house and field are lit up in the winter months at night due to the amount of yard lighting.

We are also impacted by overnight working, compressor guns etc.

I am concerned how our access road will be impacted.

My life of living in the country with scenic views has already been compromised.

OP4 is similar reasons

Broomhill Roundabout is already a bottle neck for traffic, many lorries coming of the roundabout. I fear for my life every time I come off the roundabout and try to get onto the lower boghead road to access my home as cars come round the roundabout so fast.

There are 4 homes in total which are going to be impacted hugely is OP3 goes ahead and OP4.

There are also number of features of archaeological interest within the site
