Subject: Potterton Development plans Ref LDP2021NN
Date: 10 July 2020 11:18:34

Dear all

I strongly object to the Development plans for Potterton Sites OPI&OP2, Ref LDP2021NN I object to the removal off this land from the green belt, and also believe there are neither the roads or the infrastructure to support such plans and development. I don't believe that a development of this size is of a suitable scale and form which would enhance the landscape setting and character of our village. We in the village will be affected by the disruption from long construction timescales, air pollution from construction vehicles and dust and excessive noise over a long period of time.

Could you please respond to this email acknowledging receipt of my objections.

Regards

Olive Neilson
