

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Reference LDP 20221 NN

Modifications to proposed development on sites OP1 and OP2 (FR140, FR141a and FR 141b) with additional future sites with reserved status FR037a and FR104

Wish to see no additional homes built on these sites

Reason for change:

Reasons for change of these proposals to have no housing of these numbers built in Potterton:

Potterton is a village of approx. 400 houses at the moment and the local community with to keep the village of the size it is. The proposals would in effect double the size of the number of homes in the village. I have chosen to live in this village because of the size of the community and have no wish to see the village become another housing estate.

The proposed sites are on Greenbelt designated land. The fields and green surroundings are part of the reason I have chosen to live here. This would cause disruption to the peace and tranquillity of the village, spoil views, prevent walks increase traffic and pollution.

Currently there are homes for sale in Potterton which have not been sold and this was before the current pandemic. I understand the need for affordable housing but housing in Potterton is already affordable and yet in the recent housing market these have not been able to sell. Neighbours on our street have had to take their homes off the market. Therefore if current homes are not able to sell given the affordable prices why build more?

Currently in Aberdeen city and shire there are 4500 residential properties for sale

There must also be many brown belt sites in Aberdeen city and shire which would be suitable to build further housing without spoiling a whole village.

According to the assessment of bid sites there is insufficient water capacity at Balmedie WWTW which will necessitate a growth project. The development could have a long term negative impact on climatic factors due to increased traffic and therefore increased emissions which will impact negatively on the residents of Potterton as well as the wildlife.

It is stated in the report that “what gets developed will become part of the landscape” which is sadly true but I do not wish to be walking through a housing estate and looking at large number of homes but wish instead to continue to be able to have a view of fields and enjoy the clean air.

The building will be disruptive to the local community as Potterton will become a building site for the next few years and will also disrupt local wildlife including deer, foxes, hedgehogs, mice, newts and frogs and a wide variety of birds. Although the report states there would not be a loss in open space and paths of course there would if the plan is to build on these open spaces. The report is contradictory to these facts.

The public transport links to Potterton are in fact quite poor with only 1 bus per hour and only 4 buses on a Sunday. At peak times the bus can be very busy by the time it gets to the village. With the potential of a few hundred additional families in the village the transport links will not be sufficient at all.

Finally, as previously stated about homes for sale, if this development goes ahead there will be a cost to those who already own homes in the village. As there is growing trend towards new homes being developed, no one seems to care about those who already own homes. People appear to want brand new homes so to sell existing homes will become even harder than it already is. With another possible downturn in Aberdeen do we actually need the number of homes that are being built?

I appreciate the time taken to read this and I hope you can see that Potterton does not want to be another housing estate but wishes to remain as the small community surrounded by green land.
