---

I strongly object to the proposed development at potterton. I am sure there are plenty other land for houses that doesn't destroy the surrounding green belt. More houses would ruin this village. Roads are not suitable for all the extra traffic. The extra noise & mess would affect us greatly. My husbands only pleasure now is looking out over the fields. It would be very sad for everyone to lose that sense of space around our village. We don't need any more houses & disruption.
