## YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. **Modification that you wish to see** (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Change of access to the proposed houses behind the square and Urquhart road, New Byth. It would be more sensible to make the access at the end of Urquhart road.

**Reason for change:**

The access proposed is used by a bus company. It is a four way junction at the square which has two blind bends. The increase of vehicles make this a dangerous place for walkers and traffic. The proposed access road joins a public pathway and right of way. This is well used by villagers walking their dogs and for general exercise. This again would be more hazardous for villagers and a loss of an amenity. The village has very little in amenities as it is. My neighbour has also created a small nature area in the adjoining field. Extra traffic would spoil this area. Our village has had problems with its drainage because of lorries using it as a shortcut. The drains are crumbling. Extra houses would exacerbate this. I realise extra housing is needed but New Byth has no amenities to support them. The proposed access would spoil our one area that the villagers use. Moving it to the end of Urquhart road would be a lot better.
