

# PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a ‘Main Issues Report’ was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan (“the Proposed Plan”).

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

## **This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.**

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to [ldp@aberdeenshire.gov.uk](mailto:ldp@aberdeenshire.gov.uk) or send this form to reach us by 31 July 2020\*.

We recommend that you keep a copy of your representation for your own records.

*\*UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

# YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

**Modification that you wish to see** (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1): Appendix 7d - Garioch

Appendix 7d - Garioch

The size of proposed allocation OP1 at Hatton of Fintray should be increased in size in line with bid GRO44 and to accord with the area of allocation for housing in the current LDP. Housing numbers proposed to be at least 12 in line with the bid.

**Reason for change:**

The original bid to increase the allocation in the current LDP 2017 from 8 to 12 houses was accepted by the Planning Service and proposed in the Main Issues Report to be increased from 12 to 32 to avoid under development. It was subsequently recommended that the site be developed for 16 houses but that it be reduced in size.

It is requested that the allocation boundary remains as drawn in the current ALDP 2017 but with an increase to 16 units.

This will still result in development of the desired higher density. Halving the amount of development land reduced does not make sense from a delivery or good planning perspective.

Please see attached paper apart which details the full representation objecting to this proposal.

## **Proposed Modification to the Proposed Aberdeenshire Local Development Plan 2020**

### **Appendix 7d – Garioch**

#### **Increase area of allocation OP1 in line with the current LDP 2017 and increase number of houses to at least 16 houses as proposed**

This housing site has been allocated in the 2012 and 2017 Local Development Plans for development and is currently allocated as OP1 for 8 houses. As the bid noted, while development has not come forward in the last six years, this is due to no other reason than the general economic downturn in the area.

The original bid GR044 to increase the allocation in the current LDP 2017 from 8 to 12 houses was accepted by the Planning Service. The proposal in the Main Issues Report was for the numbers to be increased from 12 to 32 to avoid under development. While respondents suggested that the site area OR the numbers proposed be reduced and this was agreed by the Garioch Area Committee when it considered the Main Issues Report on 4 September 2019, the site has been recommended to be developed for 16 houses AND be reduced in size.

It is therefore disappointing that the entire area of the currently allocated site was accepted to be carried forward, was proposed for a reasonable increase in the number of units, yet the site has now been halved in size, albeit it is appreciated that the number of units is proposed to increase.

It is understood that we are advised to make effective use of land to deliver long-term benefits for the public while protecting and enhancing natural and cultural resources and that the reduced site area will produce a higher density development. However, we do not consider the site at Hatton of Fintray is the best placed location for such an approach to be taken.

The majority of development in Hatton of Fintray is less dense with a tendency towards larger plots. This has become part of the character of the village. While the historical core is more tightly developed, it is not considered that the proposed extension to the settlement should be as small and dense as proposed. Keeping the boundary of the allocation in line with the adopted LDP and increasing the density from the current 8 to around 16 would still provide a more dense development in line with the Council's strategy, but it would also allow a development which is much more in keeping with the settlement.

While not located within a Strategic Growth Area, the site remains a desirable and small scale addition to the settlement of Hatton of Fintray and has good connections to both the A96 and the Aberdeen Western Peripheral Route. Halving the amount of development land reduced does not make sense from a delivery or good planning perspective. It is requested that the allocation boundary remains as drawn in the current ALDP 2017 but with an increase to 16 units.
