

# PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

## **This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.**

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to [ldp@aberdeenshire.gov.uk](mailto:ldp@aberdeenshire.gov.uk) or send this form to reach us by 31 July 2020\*.

We recommend that you keep a copy of your representation for your own records.

*\*UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

# YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

**Modification that you wish to see** (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Policy P4.1

We will refuse development, even infill development, if there is a risk that it could cause significant pollution, create a significant nuisance (for example through impacts on air quality or noise), or present an unacceptable danger to the public or the environment. This includes developments we are told by the Health and Safety Executive or the Competent Authority to be near facilities they have identified as hazardous. Pipelines, agricultural buildings, wastewater treatment plants, waste disposal/treatment facilities and heavy industrial uses are all examples of development that could create a nuisance, pollution or hazard. In any circumstances where development of this kind is, on balance, considered acceptable by the appropriate authorities, satisfactory steps must be taken to mitigate any residual negative development impacts.

Policy P4.5

Any proposed development that has a significant detrimental impact on air quality or noise levels, through an Air Quality Assessment or a Noise Impact Assessment, will have to provide appropriate mitigation measures.

## Reason for change:

It appears that you have two contradictory policies cited above. P4.1 states that you are going to refuse development if there is a risk of significant pollution. P4.5 then states that if there is a significant impact on air quality or noise (which are pollution) developers will have to provide appropriate mitigation. Which one is it? Refusal or mitigation if there is a risk of significant impact of pollution?

Would it not be better to say that you are going to refuse developments which cause significant pollution such as noise and air quality and then go on to say that there are exceptions. For example, through good design and mitigation. Here is an example of another local authorities policy:

**There is a presumption against developments that are:**

- a. likely to generate significant amounts of noise being located close to noise sensitive developments such as existing or proposed housing; or
- b. residential or other noise sensitive developments being close to noisy land use.

The only exceptions will be where it can be demonstrated that:

- a. through design or mitigation, satisfactory internal and external noise levels can be achieved at the noise sensitive development; and
- b. through design or mitigation, there will be no adverse impact on the continued operation of any existing or proposed business or activity.
