

RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

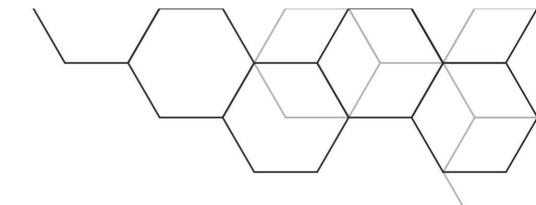

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

*UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.

ACCESSIBILITY

If you need information from this document in an alternative language or in a Large Print, Easy Read, Braille or BSL, please telephone 01467 536230.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Appendix 7F Settlement Statements Marr, p863-866 – inclusion of sites MR034 (Phase 1, Land South of Beltie Road) and MR035 (Phase 2, and South of Beltie Road) in line with Officer's recommendation at MIR and Issues and Action Paper stages of the preparation of the LDP2 to meet demand for future housing in the settlement of Torphins.

Reason for change:

Wardell Armstrong LLP, on behalf of our client AJC Homes Scotland Ltd, prepared 3 separate bids for inclusion of their site at Land South of Beltie Road within the forthcoming second Local Development Plan.

Phases 1 and 2 were subsequently chosen as Aberdeenshire Council Officer's preferred sites for the future expansion of Torphins. The reasons for this are outlined below. Wardell Armstrong then submitted a representation in support for the allocation of sites MR034 and MR035 within the settlement of Torphins as identified within the Main Issues Report (MIR) (2019) and Draft Proposed Aberdeenshire Local Development Plan (LDP) (2019).

Further details of the two bids are as follows -

- OP2 (Bid MR034 Phase 1, Land South of Beltie Road) is allocated for 29 residential units.
- OP3 (Bid MR035 Phase 2, Land South of Beltie Road) is allocated for 21 residential units.

It is our view that these sites represent the most suitable and deliverable growth solution for the settlement, meeting demand for housing within the Marr area. As discussed within the initial site bids prepared on behalf of our client, it is considered that the proposed sites (Phases 1 and 2) are deliverable for a number of reasons. In brief –

- The site has no significant constraints;
- The site is solely owned by and is under option by AJC Homes Scotland Ltd, has no ransom issues and suitable access via the existing road network is possible;
- AJC Homes have a track record of developing high quality homes in rural Aberdeenshire which contribute positively to local settlements;
- There are no capacity issues which could hinder development, i.e. education, water infrastructure, road network;
- The scale of development proposed is appropriate for Torphins in terms of there being a realistic build rate; and
- The site is centrally located within Torphins, effectively forming the 'missing' south west corner of the settlement, close to all local facilities including the hall, school and other local amenities.

As discussed above, within the Main Issues Report (2019), the allocation of MR034 (Phase 1, Land South of Beltie Road) and MR035 (Phase 2, Land South of Beltie Road) were identified as the Officer's preference for allocation within the second LDP for the below reasons –

Phase 1

- The scale and location of the proposed site fits well with the existing pattern of the village and enhances the linear character of the settlement:
- The proposed layout shows insight into the opportunities provided by the site within the wider context of the village and addresses many of the desirable planning outcomes; and
- The development has no constraints other than potential capacity issues at Aboyne Academy.

Phase 2

- The scale and location of the proposed site fits well with the proposed first phase;
- The site continues to promote the existing pattern of the village and enhances the linear character of the settlement down towards the Beltie Burn itself;
- The public open space proposed would be a significant and positive enhancement for the village and assist in minimising potential impact on the River Dee SAC; and
- As with Phase 1, capacity at Aboyne Academy may be an issue however is certainly resolvable.

Within the Issues and Actions paper for Marr prepared by the Council Officer's, the following commentary was included with regard to sites MR034 and MR035 –

'The comments received both in support and against this bid site are acknowledged. It is maintained that this site would be a natural location for future growth of the settlement, outwith the Dee Valley SLA. Careful landscaping, layout and design such that development is setback from the road with a potential 'green wedge' of landscaping, may offset some of the concerns in relation to the impact on the setting of the settlement and reduce the visual impact of existing ribbon development to the north of Beltie Road. The site has the potential to create a civic space that will make a more formalised centre point for the benefit of the settlement as a whole. In consideration of comments regarding the lack of need, it is agreed that existing site OP1 (MR060) may provide a sufficient level of housing for the settlement and should remain the focus for development but the allocation of the MR034 and MR035 sites provide a range of sites and important choice within the settlement. It is recommended that this bid site is taken forward as an allocation at this point in time, but with significant restrictions on the need for strategic open space provision to assist both biodiversity and sense of place.'

As considered by the Officers, the site has been carefully designed by an architect with landscape architect input to ensure the best possible site design was achieved, and any potential landscape impacts minimised where possible. Enhancement opportunities have also been identified. As also considered by the Officer, inclusion of this site provides important housing choice within the settlement.

At committee stage, the MR034 and MR035 were not taken forward as allocations which was extremely disappointing following the officer's favourable comments and support for the allocation.

The proposed plan which has subsequently been taken forward includes just one allocation in Torphins. Given the scale of the settlement, it is considered this is not sufficient to meet local demand or provide the opportunity for choice, and as such we ask that MR034 and MR035 are included within the Local Development Plan. The site's central location, effectively forming the 'missing' south west quarter of the settlement, in close proximity to local facilities such the school and shops, provides the next logical location for expansion of Torphins.

The site is deliverable and would provide future residents with a high quality environment in which to live.

For information we append the original bid documents for sites MR034 and MR035, as well as the village analysis undertaken by the architect and submitted to support the original bid.

PRIVACY NOTICE

LOCAL DEVELOPMENT PLAN PUBLIC COMMENT

The Data Controller of the information being collected is Aberdeenshire Council.

The Data Protection Officer can be contacted at Town House, 34 Low Street, Banff, AB45 1AY.

Email: dataprotection@aberdeenshire.gov.uk

Your information is being collected to use for the following purposes:

 To provide public comment on the Aberdeenshire Local Development Plan. The data on the form will be used to inform Scottish Ministers and individual(s) appointed to examine the Proposed Local Development Plan 2020. It will inform the content of the Aberdeenshire Local Development Plan 2021.

Your information is:

B 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1

The Legal Basis for collecting the information is:

Personal Data	
Legal Obligations	X

Where the Legal Basis for processing is either Performance of a Contract or Legal Obligation, please note the following consequences of failure to provide the information:

It is a Statutory Obligation under Section 18 of the Town and Country (Scotland) Act 1997, as amended, for Aberdeenshire Council to prepare and publish a Proposed Local Development plan on which representations must be made to the planning authority within a prescribed period of time. Failure to provide details requested in the 'Your Details' section of this form will result in Aberdeenshire Council being unable to accept your representation.

Your information will be shared with the following recipients or categories of recipient:

Members of the public are being given this final opportunity to comment on the Proposed Aberdeenshire Local Development Plan. The reasons for any changes that the Council receives will be analysed and reported to Scottish Ministers. They will then appoint a person to conduct a public examination of the Proposed Plan, focusing particularly on the unresolved issues raised and the changes sought.

Your name and respondent identification number (provided to you by Aberdeenshire Council on receipt of your

submission) will be published alongside a copy of your completed response on the Proposed Local Development Plan website (contact details and information that is deemed commercially sensitive will not be made available to the public).

In accordance with Regulation 22 of the Town and Country (Development Planning) (Scotland) Regulations 2008 where the appointed person determines that further representations should be made or further information should be provided by any person in connection with the examination of the Proposed Plan the appointed person may by notice request that person to make such further representations or to provide such further information.

Your information will be transferred to or stored in the following countries and the following safeguards are in place:

Not applicable.

The retention period for the data is:

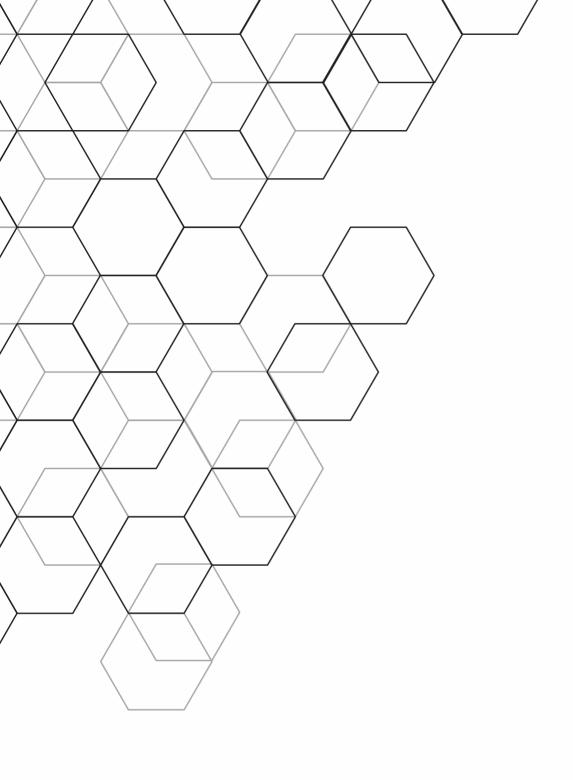

Aberdeenshire Council will only keep your personal data for as long as is needed. Aberdeenshire Council will retain your response and personal data for a retention period of 5 years from the date upon which it was collected. After 5 years Aberdeenshire Council will review whether it is necessary to continue to retain your information for a longer period. A redacted copy of your submission will be retained for 5 years beyond the life of the Local Development Plan 2021, possibly until 2037.

The following automated decision-making, including profiling, will be undertaken:

Not applicable.

Please note that you have the following rights:

- to withdraw consent at any time, where the Legal Basis specified above is Consent;
- to lodge a complaint with the Information Commissioner's Office (after raising the issue with the Data Protection Officer first);
- to request access to your personal data;
- to data portability, where the legal basis specified above is:
 - (i) Consent; or
 - (ii) Performance of a Contract;
- to request rectification or erasure of your personal data, as so far as the legislation permits.

29th March 2018

Dear

ABERDEENSHIRE LOCAL DEVELOPMENT PLAN (LDP) 2021 – LAND TO SOUTH / WEST OF TORPHINS PHASE 1

Please find enclosed our completed bid form, location plan and supporting information in relation to Phase 1 of our 'Land to the South / West of Torphins' LDP bid, submitted on behalf of AJC Homes and

We trust that the information within this bid is clear, however if you have any questions or require any further information please do not hesitate to contact us.

Yours sincerely

for Wardell Armstrong LLP

Senior Planner

Call for Sites Response Form

Aberdeenshire Council would like to invite you to use this form to submit a site for consideration within the next Local Development Plan (LDP 2021) for the period 2021 to 2031. A separate form should be completed for each site you wish to submit.

This is not a speculative plan. It is a fresh 'call for sites', so please re-submit any sites that do not or are not expected to have planning permission by 2021.

In order for the bids to be fully assessed, it is crucial that the questions in the bid form are answered fully and concisely with clear evidence of deliverability. The submission of a supporting statement, often known as a paper apart, should be avoided, and only assessments, such as a Flood Risk Assessment that has already been undertaken, should be submitted in support of your proposed site.

Completed forms and Ordnance Survey "Landline" site maps should be returned by email to: ldp@aberdeenshire.gov.uk

Alternatively, you can return the form and Ordnance Survey map by post to: Planning Policy, Infrastructure Services, Woodhill House, Westburn Road, Aberdeen ABI6 5GB

All forms must be submitted by 31 March 2018.

12. Landscape Impact

Is the site within a Special Landscape Area (SLA)?
(You can find details in Supplementary

Guidance 9 at www.aberdeenshire.gov.uk/ldp)

SLAs include the consideration of landscape character elements/features. The characteristics of landscapes are defined in the Landscape Character Assessments produced by Scottish Natural Heritage (see below) or have been identified as Special Landscape Areas of local importance.

- SNH: Landscape Character Assessments https://www.snh.scot/professional-advice/landscape-character-assessment
- SNH (1996) Cairngorms landscape assessment http://www.snh.org.uk/pdfs/publications/review/075.pdf
- SNH (1997) National programme of landscape character assessment: Banff and Buchan http://www.snh.org.uk/pdfs/publications/review/037.pdf
- SNH (1998) South and Central Aberdeenshire landscape character assessment http://www.snh.org.uk/pdfs/publications/review/102.pdf

No

If yes, please state which SLA your site is located within and provide details of how you plan to mitigate the impact of the proposed development:

If your site is not within an SLA, please use this space to describe the effects of the site's scale, location or design on key natural landscape elements/features, historic features or the composition or quality of the landscape character:

Torphins is located within the Cromar Uplands Landscape Character Area of the South and Central Aberdeenshire LCA. The key Specific Guidance objectives are:

- To retain the high diversity of textures and landscape features
- To maintain the traditional settlement pattern and rural character

The proposed development will be of a high quality design appropriate for the rural village setting of Torphins. Phasing of the proposed development would enable the village to grow in an organic way in line with the historic settlement patterns of Torphins.

The existing village is bound with a soft wooded edge to the north, east and south providing an appropriate transition from urban to rural landscape. The western boundary of Torphins, which would provide the eastern boundary of the proposed allocation site, is predominantly hard. It is proposed through phased development to gradually soften this edge through internal structure tree planting, graded development density and a wooded development edge to the west of Phase 3. This would ultimately prove beneficial to the character of the western extents of the village.

During the interim phases of development a soft boundary would be maintained through strategic siting of parkland and wooded avenues. This would provide visual screening and reduce impact to the character of the surrounding landscape of Torphins. As phases progress these green edges would be incorporated into the development to provide a strong green infrastructure.

The character of the proposed landscape is diverse with formal elements closer to the historic centre of Torphins and informal naturalised elements closer to the Beltie Burn and outer boundary of the site. This would provide a range of landscape textures in keeping with the wider landscape character of Torphins.

A development buffer is proposed to the Beltie Burn and River Dee Special Area of Conservation that bounds the site to the south-west. This buffer would retain and protect the landscape and ecological value of the Beltie Burn. The design would provide an informal path network to the peripheries of the buffer to ensure that the community of Torphins can enjoy this special landscape for generations to come. This would connect into the existing network of green infrastructure and public paths of Torphins and to key nodes within the development in line with the aims and objectives of local groups such as the Torphins Paths Group. This would foster integration of the new community with the existing.

As discussed above, drystone dykes will be retained, and the material used, where appropriate, with the potential opportunity to create a village gateway feature at the north western corner of the site.

In terms of scale of building design, all homes will be I-2 storeys in height in keeping with existing urban grain of Torphins.

13. Flood Risk

Is any part of the site identified as being at risk of river or surface water flooding within SEPA flood maps, and/or has any part of the site previously flooded?

(You can view the SEPA flood maps at http://map.sepa.org.uk/floodmap/map.htm)

Ye

If yes, please specify and explain how you intend to mitigate this risk:

The southern edge of the site is at risk of river flooding as identified by SEPA's flood maps. The proposal will comprise detailed SUDs design which will adequately serve the development and prevent the risk of flooding. No built development is proposed in this area of the site. Instead, the land adjacent to the Beltie Burn will form an open space area.

Could development on the site result in	No
additional flood risk elsewhere?	If yes, please specify and explain how you intend to mitigate or avoid this risk:
Could development of the site help alleviate	Yes
any existing flooding problems in the area?	If yes, please provide details: Landscape planting (native trees) along the southern edge of the site may provide minor benefit.

14. Infrastructure

a. Water / Drainage		
Is there water/waste water capacity for the proposed development (based on Scottish Water asset capacity search tool http://www.scottishwater.co.uk/business/Connections/Connecting-your-property/Asset-Capacity-Search)?	Water Waste water	Yes – undergoing growth with planned investment within 2015 – 2021 period (Ref: Aberdeenshire Local Development Plan Action Programme 2017) Yes – 65 units capacity available (Ref: Scottish Water
Has contact been made with Scottish Water?	No	Asset Capacity Search)
Will your SUDS scheme include rain gardens? http://www.centralscotlandgreennetwork.org/campaigns/greener-gardens	Yes – the option of installing rain water harvesting will be explored. This would consist of installing underground tanks which accommodate initial rain fall which can be used to water gardens, wash cars etc.	
b. Education - housing proposals only		
Education capacity/constraints https://www.aberdeenshire.gov.uk/schools/pare nts-carers/school-info/school-roll-forecasts/	Please provide details of any known education constraints. Is additional capacity needed to serve the development? No, the most recent school roll forecasts identify a declining school roll at Torphins Primary School. The current capacity (2017) i 85%, while capacity in 2022 is forecast to be 75%. The proposed development will provide the opportunity to support the declining school

e. Public open space	
Will the site provide the opportunity to	Yes
enhance the green network? (These are	Please specify:
ciliance die green network: (These are	r reade specify.

the linked areas of open space in settlements, which can be enhanced through amalgamating existing green networks or providing onsite green infrastructure) You can find the boundary of existing green networks in the settlement profiles in the LDP Will the site meet the open space standards, as set out in Appendix 2 in the Aberdeenshire Parks and Open Spaces Strategy? https://www.aberdeenshire.gov.uk/media/6077/approvedpandospacesstrategy.pdf Will the site deliver any of the shortfalls identified in the Open Space Audit for specific settlements? https://www.aberdeenshire.gov.uk/communities-and-events/parks-and-open-spaces/open-space-strategy-audit/	It is proposed to create an open space area along the southern boundary of the site, providing the opportunity to enhance the existing green network adjacent to the Beltie Burn Yes Please specify: Adequate open space provision is included within the proposal to meet the open space requirements of the Aberdeenshire Parks and Open Spaces Strategy. Yes/No/Not applicable Please specify: With regard to Torphins, the Open Space Audit concludes – 'Torphins has a good range of open space, and the high levels of natural/semi natural areas are reflective of a rural village of its size'. The proposed open space and landscaping will provide an opportunity to further enhance the rural setting of the settlement and provide useable public space for existing and new residents to enjoy. It is proposed to connect with existing path networks within the village. The applicant would like to consult with the Torphins Path Group as there may be an opportunity to tie in with some of their aspirations for improving the local walking and cycling routes around Torphins.
f. Resource use	
Will the site re-use existing structure(s) or recycle or recover existing on-site materials/resources?	There are no existing structures on site, however as discussed above, existing drystone wall will be retained and/ or material reused on site to create new boundary/ gateway features.
Will the site have a direct impact on the water environment and result in the need for watercourse crossings, large scale abstraction and/or culverting of a watercourse?	No

15. Other potential constraints

Please identify whether the site is affected by any of the following potential constraints:

Aberdeen Green Belt	No
https://www.aberdeenshire.gov.uk/media/20555/appendix-3-	
boundaries-of-the-greenbelt.pdf	
Carbon-rich soils and peatland	No
http://www.snh.gov.uk/planning-and-development/advice-for-	
planners-and-developers/soils-and-development/cpp/	
Coastal Zone	No
https://www.aberdeenshire.gov.uk/media/20176/4-the-coastal-	
zone.pdf	
Contaminated land	No
Ground instability	No
Hazardous site/HSE exclusion zone	No
(You can find the boundary of these zones in Planning Advice I/2017	
Pipeline and Hazardous Development Consultation Zones at	
https://www.aberdeenshire.gov.uk/planning/plans-and-	
policies/planning-advice/ and advice at	
http://www.hse.gov.uk/landuseplanning/developers.htm)	
Minerals – safeguarded or area of search	No

<u>_safeguard_for_minerals.pdf</u>	
Overhead lines or underground cables	No
Physical access into the site due to topography or geography	No
Prime agricultural land (grades 1, 2 and 3.1) on all or part of the site.	No
http://map.environment.gov.scot/Soil_maps/?layer=6	
'Protected' open space in the LDP (i.e. P sites)	No
www.aberdeenshire.gov.uk/ldp and choose from Appendix 8a to 8f	
Rights of way/core paths/recreation uses	No
Topography (e.g. steep slopes)	No
Other	No
	1

If you have identified any of the potential constraints above, please use this space to identify how you will mitigate this in order to achieve a viable development:

16. Proximity to facilities

10.110xiiiiii, co lacilici		
How close is the site to a range of facilities? *Delete as appropriate	Local shops	400m
	Community facilities (e.g. school, public hall)	400m (to primary school, nursery and village hall)
	public fiall)	Hursery and village Hall)
	Sports facilities (e.g. playing fields	400m
	Employment areas	400m
	Residential areas	400m
	Bus stop or bus route	400m
	Train station	>1km
	Other, e.g. dentist, pub (please specify	400m – to pub, pharmacy, café

17. Community engagement

Has the local community been given the opportunity to influence/partake in the design and specification of the development proposal?

Not yet

If yes, please specify the way it was carried out and how it influenced your proposals:

If not yet, please detail how you will do so in the future:

Prior to any planning application being submitted for the site, a community engagement event will be held. This will provide the opportunity to hear the thoughts of existing residents of Torphins and, where applicable, inform the final proposal.

18. Residual value and deliverability

Please confirm that you have considered the 'residual value' of your site and you are confident that the site is viable when infrastructure and all other costs, such as constraints and mitigation are taken into account.

I have considered the likely 'residual value' of the site, as described above, and fully expect the site to be viable:

Please tick:

If you have any further information to help demonstrate the deliverability of your proposal, please provide details.

It is considered that the proposed site is deliverable for a number of reasons. In brief -

- The site has no significant constraints.
- The site is solely owned by _____, has no ransom issues and suitable access via the existing road network is possible.
- AJC Homes have a track record of developing high quality homes in rural Aberdeenshire.
- There are no capacity issues which could hinder development, i.e. education, water infrastructure, road network.
- The scale of development proposed is appropriate for Torphins in terms of there being a realistic build rate.

19. Other information

Please provide any other information that you would like us to consider in support of your proposed development (please include details of any up-to-date supporting studies that have been undertaken and attach copies e.g. Transport Appraisal, Flood Risk Assessment, Drainage Impact Assessment, Peat/Soil Survey, Habitat/Biodiversity Assessment etc.)

Please find attached the following plans which provide further detail of our proposal -

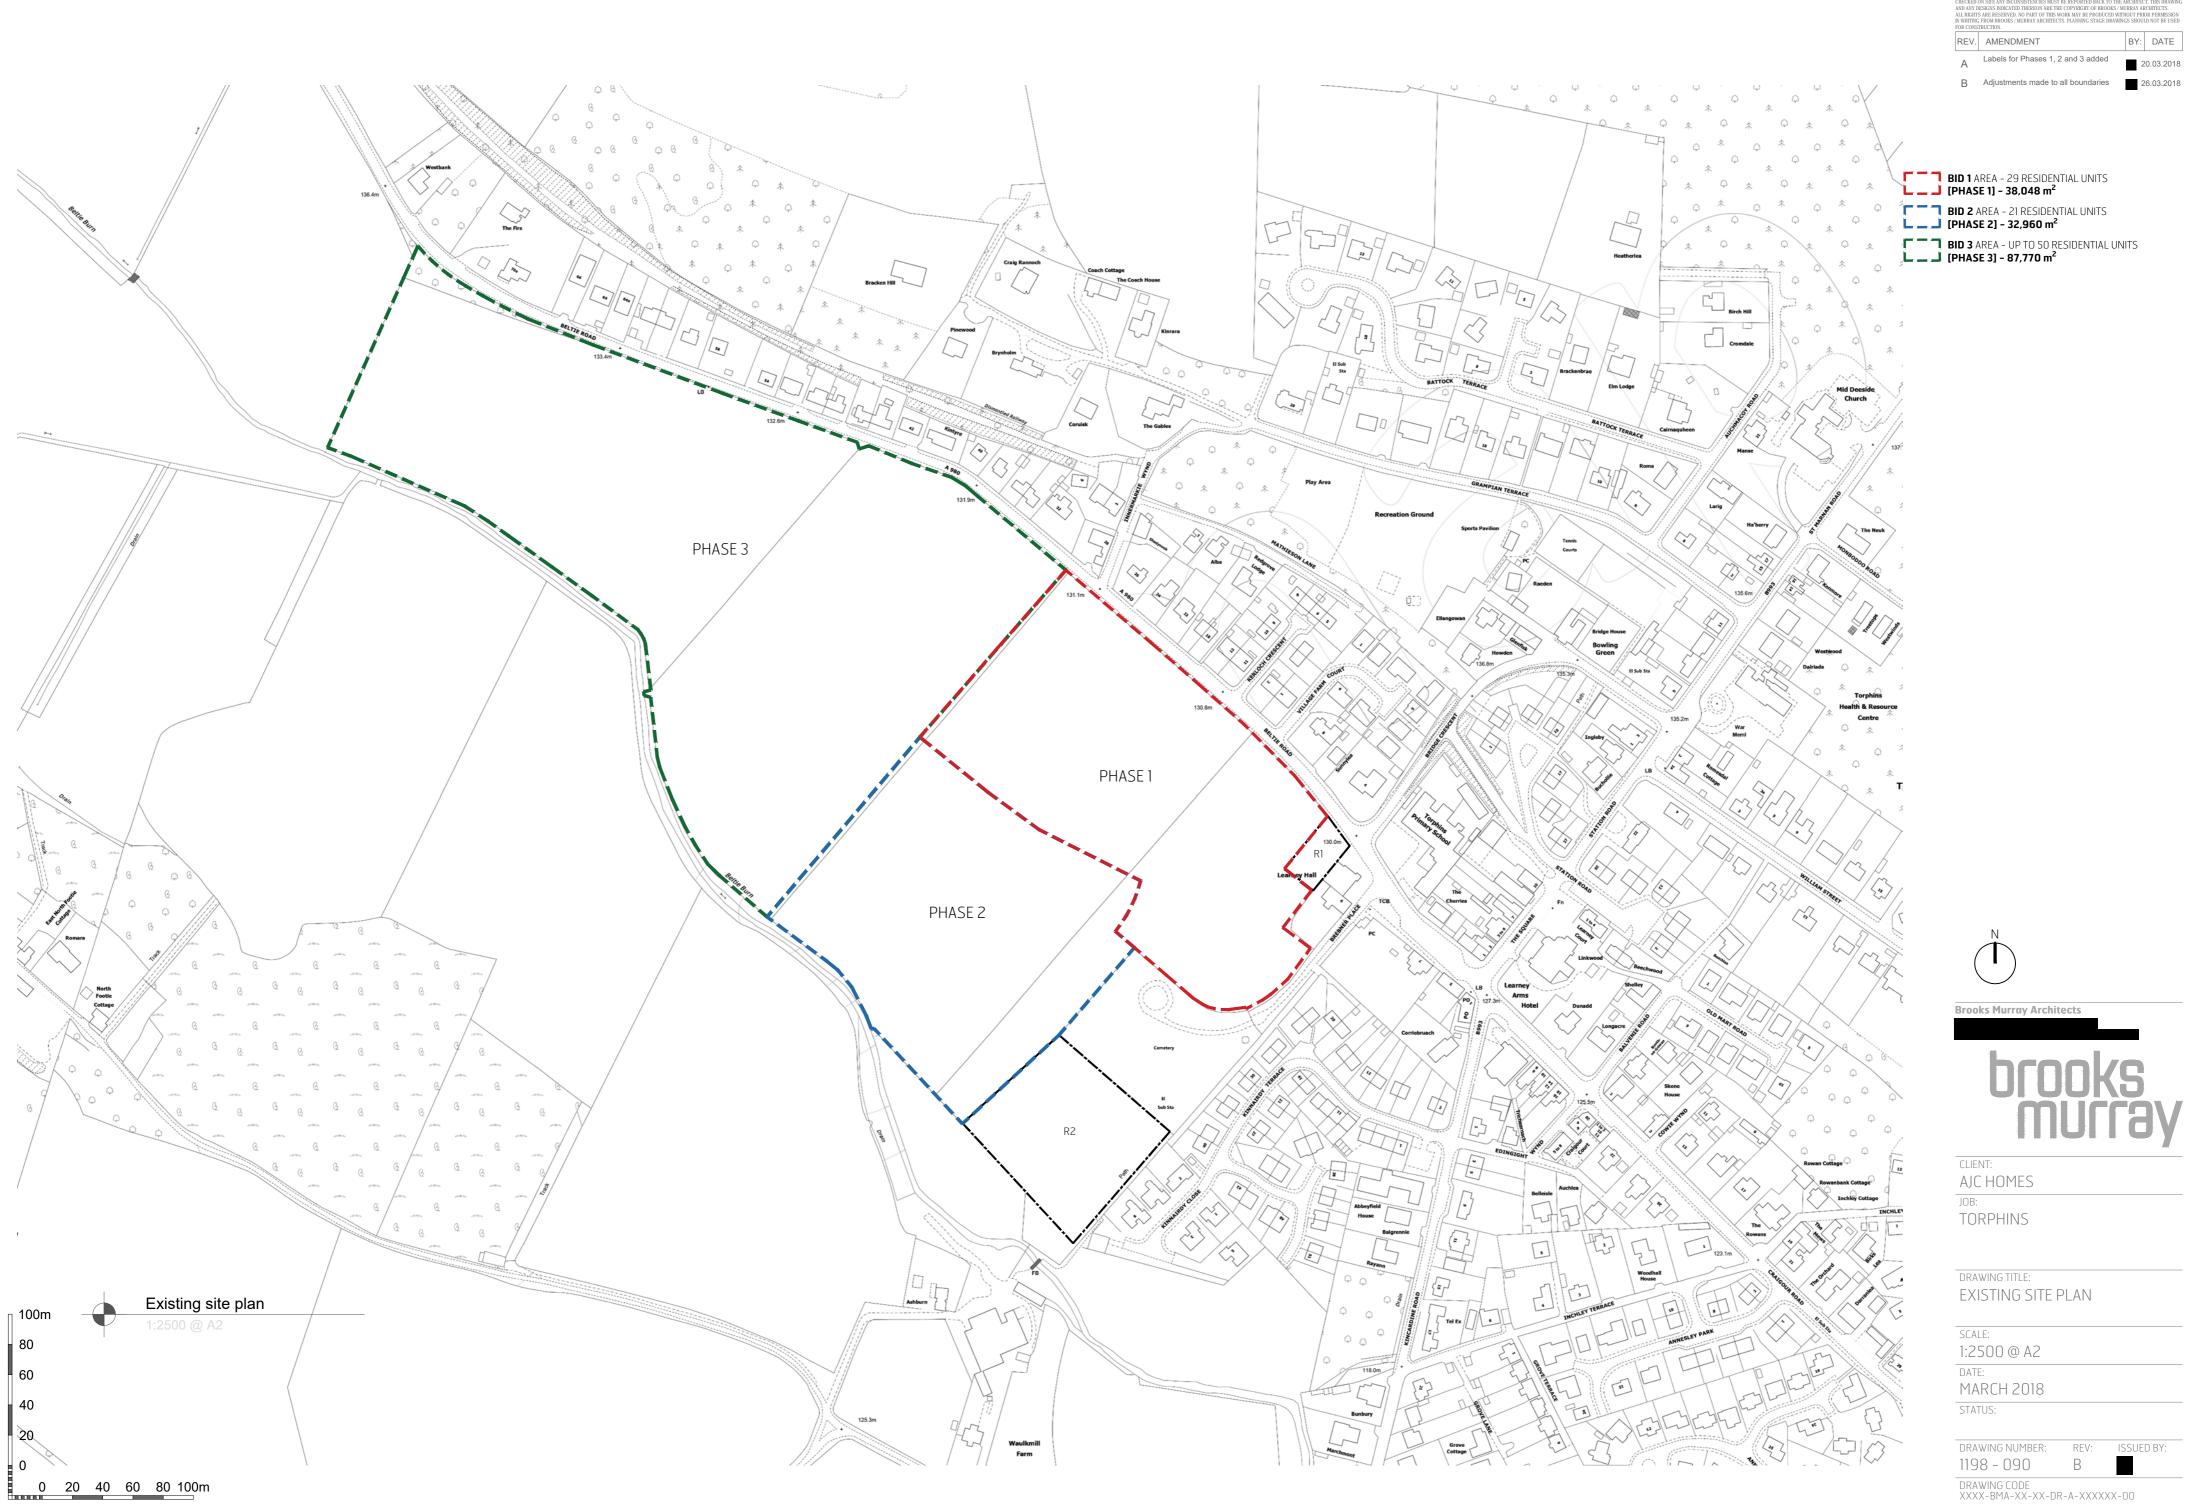

- Existing Site Plan
- Concept Plan

- Illustrative Masterplan
- Street Elevations
- Perspective Views
- Townscape Analysis
- Concept Landscape Arrangement
- House Types Morven
- House Types Craiglich
- House Types Cublean
- House Types Foudland
- House Types Argyll
- House Types House Type N
- House Types Cottage
- Village Analysis

Please tick to confirm your agreement to the following statement:

By completing this form I agree that Aberdeenshire Council can use the information provided in this form for the purposes of identifying possible land for allocation in the next Local Development Plan. I also agree that the information provided, other than contact details and information that is deemed commercially sensitive (questions I to 3), can be made available to the public.

Edge Park - the proposed built form is set back from Beltie Road and a new edge park incorporates a walking route that links the western end of Torphins with the Village Hall. The existing dry stone wall along Beltie Road should be retained to improve the sense of enclosure.

2 Neighbourhood Park - the existing undulating topography and orientation offer a unique opportunity to create a linear park within the development, where housing frontage can be provided. Opportunity to incorporate Sustainable Drainage

3 Beltie Burn walking route- landscaped areas and informal walking routes are proposed along the southern edge of the development, providing open views into the countryside.

Shared surfaces - shared surfaces are generally a friendly environment where pedestrians take priority over cars; and are seen as a softer approach to vehicular access within new developments.

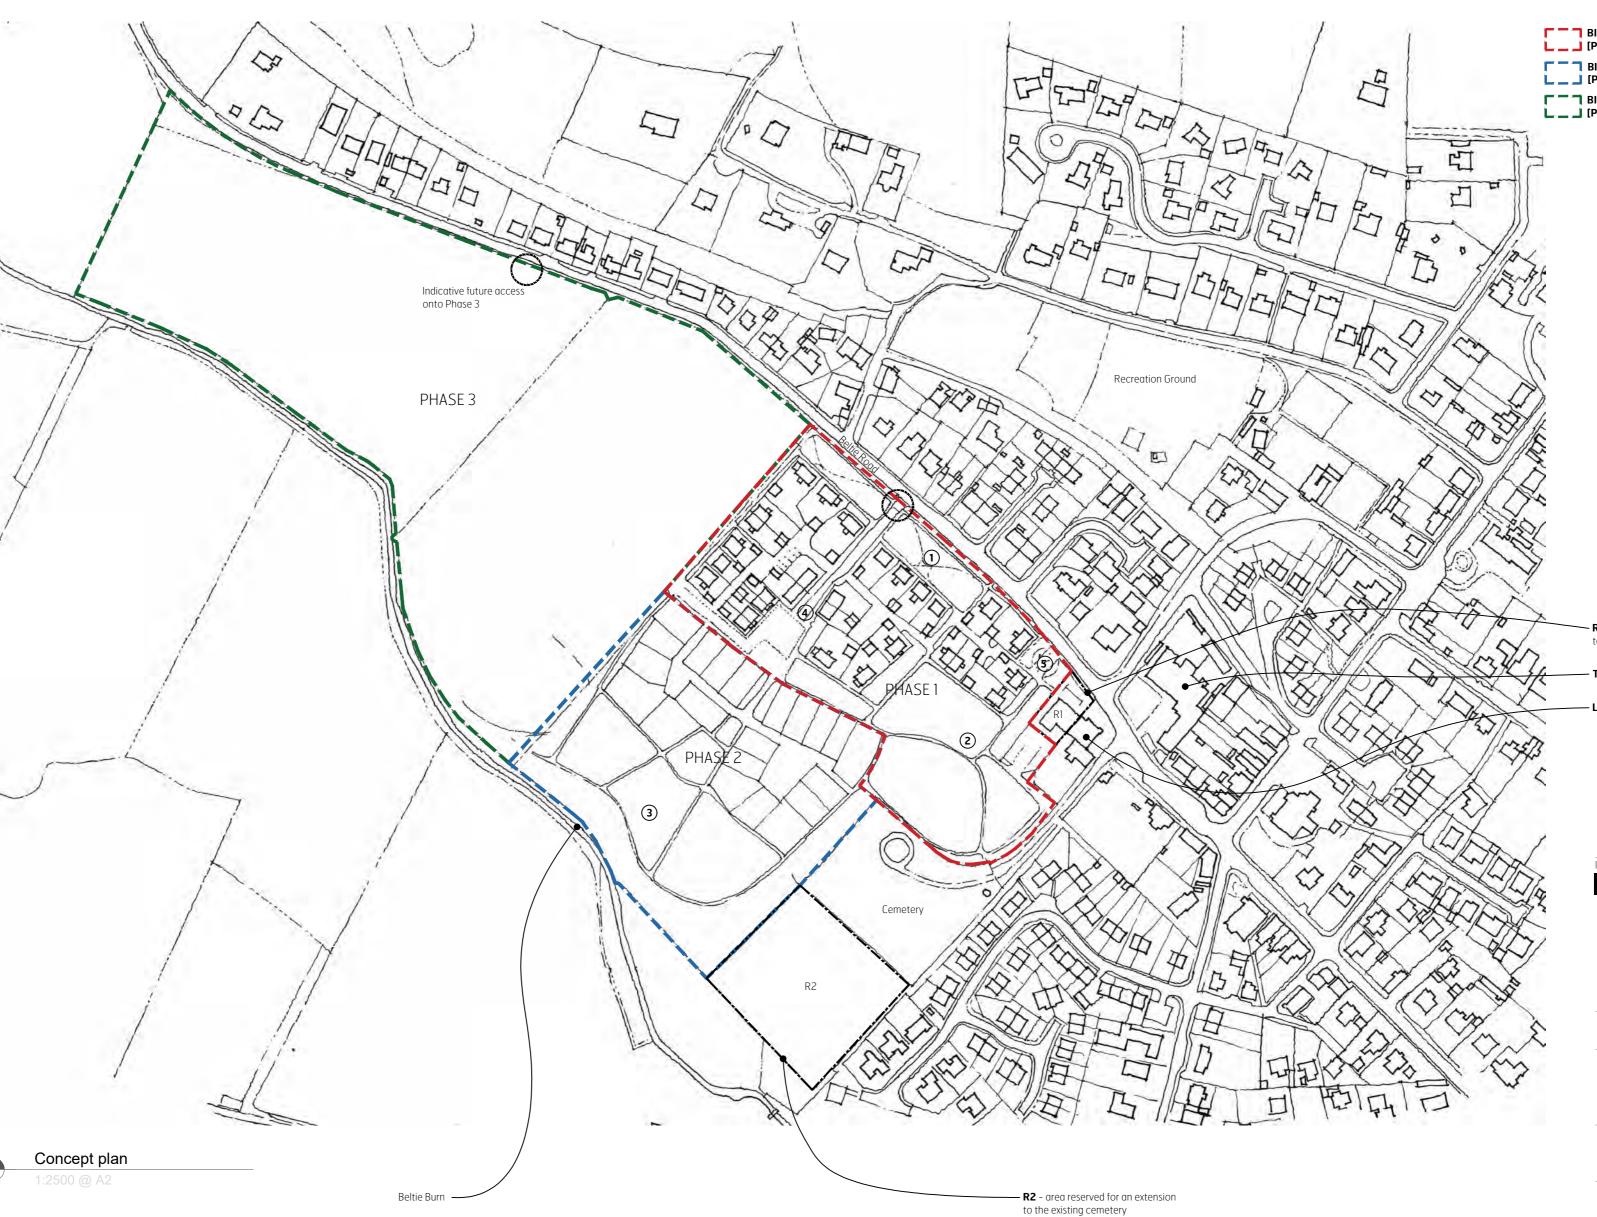

(5) Informal play area - an informal play area is proposed adjacent to the area reserved for a village hall extension and in close proximity of the Primary School.

Planning Policy Infrastructure Services Aberdeenshire Council Woodhill House Westburn Road Aberdeen AB10 5GB

29th March 2018

Dear

ABERDEENSHIRE LOCAL DEVELOPMENT PLAN (LDP) 2021 – LAND TO SOUTH / WEST OF TORPHINS PHASE 2

Please find enclosed our completed bid form, location plan and supporting information in relation to Phase 2 of our 'Land to the South / West of Torphins' LDP bid, submitted on behalf of AJC Homes and

We trust that the information within this bid is clear, however if you have any questions or require any further information please do not hesitate to contact us.

Yours sincerely for Wardell Armstrong LLP

Senior Planner

Call for Sites Response Form

Aberdeenshire Council would like to invite you to use this form to submit a site for consideration within the next Local Development Plan (LDP 2021) for the period 2021 to 2031. A separate form should be completed for each site you wish to submit.

This is not a speculative plan. It is a fresh 'call for sites', so please re-submit any sites that do not or are not expected to have planning permission by 2021.

In order for the bids to be fully assessed, it is crucial that the questions in the bid form are answered fully and concisely with clear evidence of deliverability. The submission of a supporting statement, often known as a paper apart, should be avoided, and only assessments, such as a Flood Risk Assessment that has already been undertaken, should be submitted in support of your proposed site.

Completed forms and Ordnance Survey "Landline" site maps should be returned by email to: ldp@aberdeenshire.gov.uk

Alternatively, you can return the form and Ordnance Survey map by post to: Planning Policy, Infrastructure Services, Woodhill House, Westburn Road, Aberdeen ABI6 5GB

All forms must be submitted by 31 March 2018.

I. Your Details

Name	
Organisation (if applicable)	Wardell Armstrong LLP
Address	
Telephone number	
Email address	
Do you wish to subscribe to	Yes
our newsletter?	

2. If you are acting as an agent on behalf of a third party, please give their details

Name	
Organisation (if applicable)	AJC Homes
Address	
Telephone number	
Email address	

3. Other Owners

Please give name, organisation,	
address, email details of other	
owner(s) where appropriate:	
Do these owners know this is	Yes
being proposed for	
development?	

For data protection purposes, please complete the rest of this form on a new page

4. Site Details

Name of the site	Land to the South / West of Torphins (Phase 2)	
(Please use the LDP name if the site is already allocated)		
Site address	Land South of Beltie Road, Torphins, Aberdeenshire	
OS grid reference (if available)		
Site area/size	3.3 hectares	
Current land use	Agricultural	
Brownfield/greenfield	Greenfield	
Please include an Ordnance Survey map (1:1250 or 1:2500 base for larger sites, e.g. over 2ha)		
showing the location and extent of the site, points of access, means of drainage etc.		

5. Ownership/Market Interest

Ownership	Sole owner –
(Please list the owners in	Option to purchase – AJC Homes
question 3 above)	
Is the site under option to a	Yes
developer?	AJC Homes
Is the site being marketed?	No
	N/A

See Planning Advice 5/2015 on Opportunities for biodiversity enhancement at: www.aberdeenshire.gov.uk/media/19598/20 15_05-opportunities-for-biodiversty- enhancement-in-new-development.pdf Advice is also available from Scottish Natural Heritage at: https://www.snh.scot/professional- advice/planning-and-development/natural- heritage-advice-planners-and-developers and http://www.nesbiodiversity.org.uk/.	Avoids fragmentation or isolation of habitats	introduce native species planting, including trees, and the enhancement of the existing green network close to Beltie Burn. No habitats of high ecological value currently on site have been identified on site. The creation of new green/ open space areas will provide the opportunity to introduce new habitats/ native species to
	Provides bird/bat/insect boxes/Swift bricks (internal or external)	Yes, we will consult with our project ecologist to identify the most suitable locations.
	Native tree planting	Native tree planting is proposed. See Concept Landscape Arrangement for more detail.
	Drystone wall	Drystone walls along field boundaries will be retained where possible. Where they are required to be moved, the material will be reused elsewhere on site.
	Living roofs	The feasibility of living roofs will be considered at detailed design stage, and where possible incorporated.
	Ponds and soakaways	The proposal will incorporate SUDS providing an opportunity to create green/ blue network.
	Habitat walls/fences	As detailed above, existing drystone walls will be retained where possible. If not, the material will be reused on site.
	Wildflowers in verges	Yes, to enhance biodiversity and fit in with rural character of area.
	Use of nectar rich plant species	Nectar rich plant species will be included within the landscape design.
	Buffer strips along watercourses	An appropriate buffer will be retained from the Beltie Burn. It is proposed to create open space along the southern edge of the site closest to the burn.

Show home demonstration area Other (please state):	Yes

- SNH (1998) South and Central Aberdeenshire landscape character assessment http://www.snh.org.uk/pdfs/publications/review/102.pdf

Central Aberdeenshire LCA. The key Specific Guidance objectives are:

- To retain the high diversity of textures and landscape features
- To maintain the traditional settlement pattern and rural character

The proposed development will be of a high quality design appropriate for the rural village setting of Torphins. Phasing of the proposed development would enable the village to grow in an organic way in line with the historic settlement patterns of Torphins.

The existing village is bound with a soft wooded edge to the north, east and south providing an appropriate transition from urban to rural landscape. The western boundary of Torphins, which would provide the eastern boundary of the proposed allocation site, is predominantly hard. It is proposed through phased development to gradually soften this edge through internal structure tree planting, graded development density and a wooded development edge to the west of Phase 3. This would ultimately prove beneficial to the character of the western extents of the village.

During the interim phases of development a soft boundary would be maintained through strategic siting of parkland and wooded avenues. This would provide visual screening and reduce impact to the character of the surrounding landscape of Torphins. As phases progress these green edges would be incorporated into the development to provide a strong green infrastructure.

The character of the proposed landscape is diverse with formal elements closer to the historic centre of Torphins and informal naturalised elements closer to the Beltie Burn and outer boundary of the site. This would provide a range of landscape textures in keeping with the wider landscape character of Torphins.

A development buffer is proposed to the Beltie Burn and River Dee Special Area of Conservation that bounds the site to the south-west. This buffer would retain and protect the landscape and ecological value of the Beltie Burn. The design would provide an informal path network to the peripheries of the buffer to ensure that the community of Torphins can enjoy this special landscape for generations to come. This would connect into the existing network of green infrastructure and public paths of Torphins and to key nodes within the development in line with the aims and objectives of local groups such as the Torphins Paths Group. This would foster integration of the new community with the existing.

As discussed above, drystone dykes will be retained, and the material used, where appropriate, with the potential opportunity to create a village gateway feature at the north western corner of the site.

In terms of scale of building design, all homes will be I-2 storeys in height in keeping with existing urban grain of Torphins.

13. Flood Risk

Is any part of the site identified as being at	Yes
risk of river or surface water flooding within	If yes, please specify and explain how you intend
SEPA flood maps, and/or has any part of the	to mitigate this risk:
site previously flooded?	-
	The southern edge of the site is at risk of river
(You can view the SEPA flood maps at	flooding as identified by SEPA's flood maps. The
http://map.sepa.org.uk/floodmap/map.htm)	proposal will comprise detailed SUDs design which will adequately serve the development and prevent the risk of flooding. No built development is proposed in this area of the site. Instead, the land adjacent to the Beltie Burn will form an open space area.
Could development on the site result in	No
additional flood risk elsewhere?	If yes, please specify and explain how you intend
	to mitigate or avoid this risk:
Could development of the site help alleviate	Yes
any existing flooding problems in the area?	If yes, please provide details: Landscape planting
	(native trees) along the southern edge of the
	site may provide minor benefit.

14. Infrastructure

safeguard_for_minerals.pdf	
Overhead lines or underground cables	No
Physical access into the site due to topography or geography	No
Prime agricultural land (grades 1, 2 and 3.1) on all or part of the site.	No
http://map.environment.gov.scot/Soil_maps/?layer=6	
'Protected' open space in the LDP (i.e. P sites)	No
www.aberdeenshire.gov.uk/ldp and choose from Appendix 8a to 8f	
Rights of way/core paths/recreation uses	No
Topography (e.g. steep slopes)	No
Other	No

If you have identified any of the potential constraints above, please use this space to identify how you will mitigate this in order to achieve a viable development:

16. Proximity to facilities

10.11 Oximity to lucinities		
How close is the site to	Local shops	400m
a range of facilities? *Delete as appropriate	Community facilities (e.g. school,	400m (to primary school,
с.с.с ис ирр. ор. шес	public hall)	nursery and village hall)
	Sports facilities (e.g. playing fields	400m
	Employment areas	400m
	Residential areas	400m
	Bus stop or bus route	400m
	Train station	>1km
	Other, e.g. dentist, pub (please specify)	400m – to pub, pharmacy, café

17. Community engagement

in Community engagement	
Has the local community been given the	Not yet
opportunity to influence/partake in the design	
and specification of the development proposal?	If yes, please specify the way it was carried out and how it influenced your proposals:
	If not yet, please detail how you will do so in the future:
	Prior to any planning application being submitted for the site, a community engagement event will be held. This will provide the opportunity to hear the thoughts of existing residents of Torphins and, where applicable, inform the final proposal.
	applicable, illioriti tile ilnai proposal.

18. Residual value and deliverability

Please confirm that you have considered the 'residual value' of your site and you are confident that the site is viable when infrastructure and all other costs, such as constraints and mitigation are taken into account.

I have considered the likely 'residual value' of the site, as described above, and fully expect the site to be viable:

Please tick:

√

If you have any further information to help demonstrate the deliverability of your proposal, please provide details.

It is considered that the proposed site is deliverable for a number of reasons. In brief -

- The site has no significant constraints.
- The site is solely owned by _____, has no ransom issues and suitable access via the existing road network is possible.
- AJC Homes have a track record of developing high quality homes in rural Aberdeenshire.
- There are no capacity issues which could hinder development, i.e. education, water infrastructure, road network.
- The scale of development proposed is appropriate for Torphins in terms of there being a realistic build rate.

19. Other information

Please provide any other information that you would like us to consider in support of your proposed development (please include details of any up-to-date supporting studies that have been undertaken and attach copies e.g. Transport Appraisal, Flood Risk Assessment, Drainage Impact Assessment, Peat/Soil Survey, Habitat/Biodiversity Assessment etc.)

Please find attached the following plans which provide further detail of our proposal -

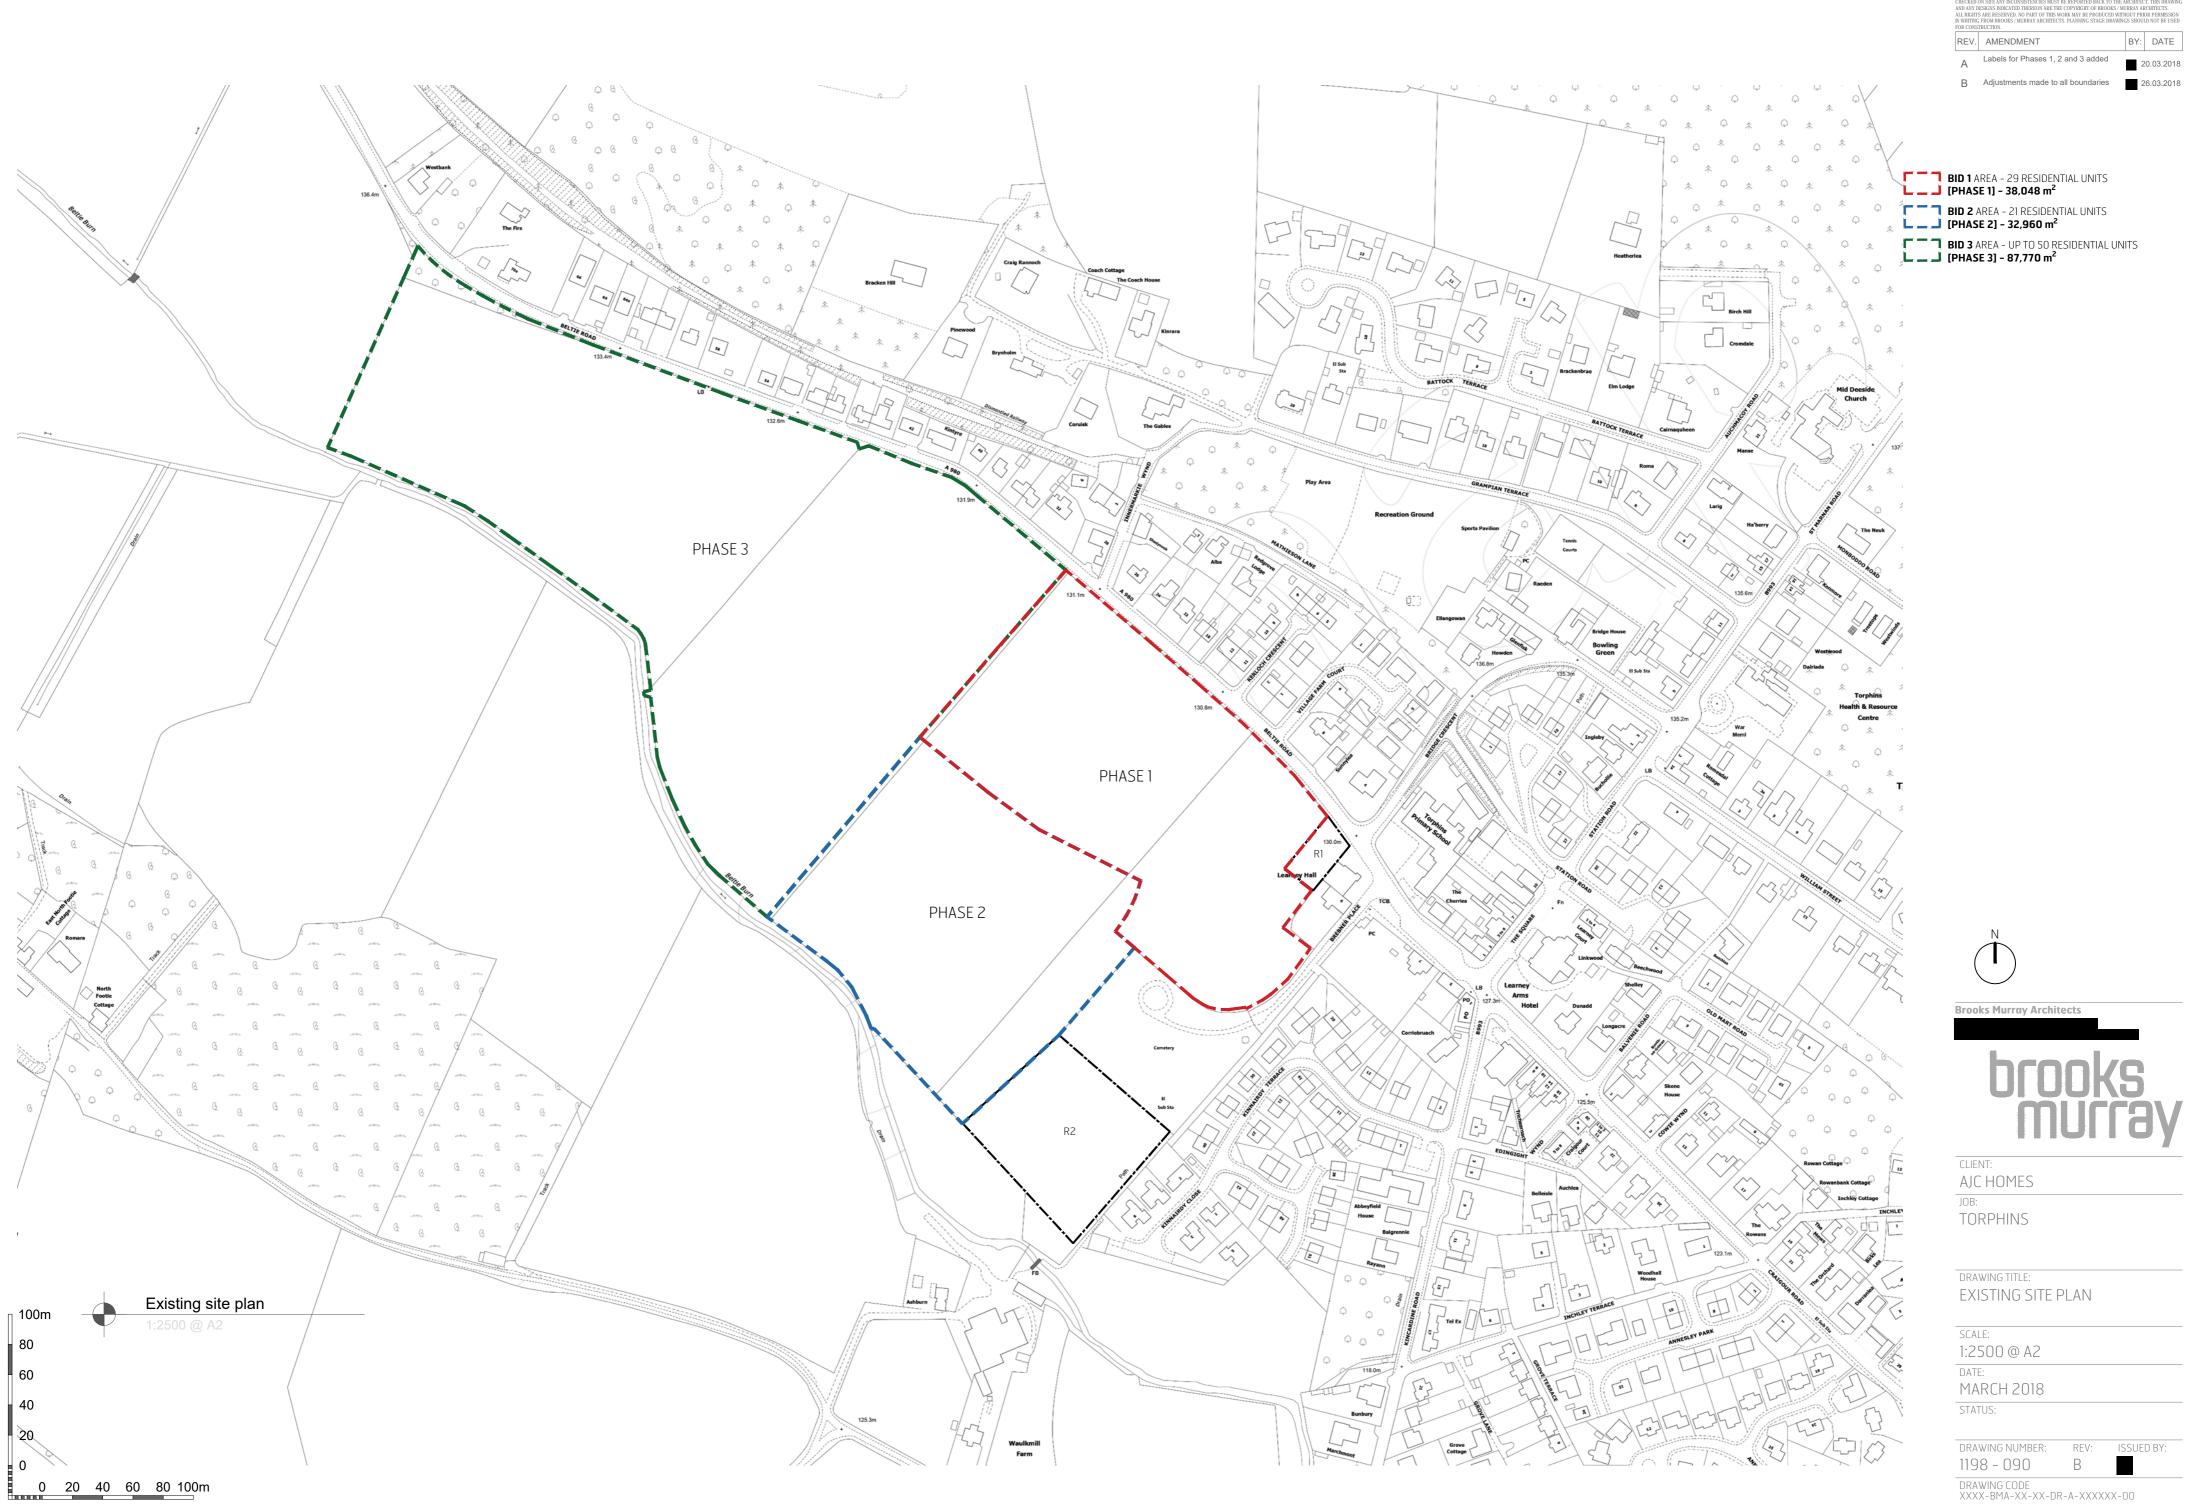

- Existing Site Plan
- Concept Plan
- Illustrative Masterplan
- Street Elevations
- Perspective Views
- Townscape Analysis
- Concept Landscape Arrangement
- Village Analysis

Please tick to confirm your agreement to the following statement:

By completing this form I agree that Aberdeenshire Council can use the information provided in this form for the purposes of identifying possible land for allocation in the next Local Development Plan. I also agree that the information provided, other than contact details and

information that is deemed commercially sensitive (questions $\,$ I to $\,$ 3), can be made available to the public.

Edge Park - the proposed built form is set back from Beltie Road and a new edge park incorporates a walking route that links the western end of Torphins with the Village Hall. The existing dry stone wall along Beltie Road should be retained to improve the sense of enclosure.

2 Neighbourhood Park - the existing undulating topography and orientation offer a unique opportunity to create a linear park within the development, where housing frontage can be provided. Opportunity to incorporate Sustainable Drainage

3 Beltie Burn walking route- landscaped areas and informal walking routes are proposed along the southern edge of the development, providing open views into the countryside.

Shared surfaces - shared surfaces are generally a friendly environment where pedestrians take priority over cars; and are seen as a softer approach to vehicular access within new developments.

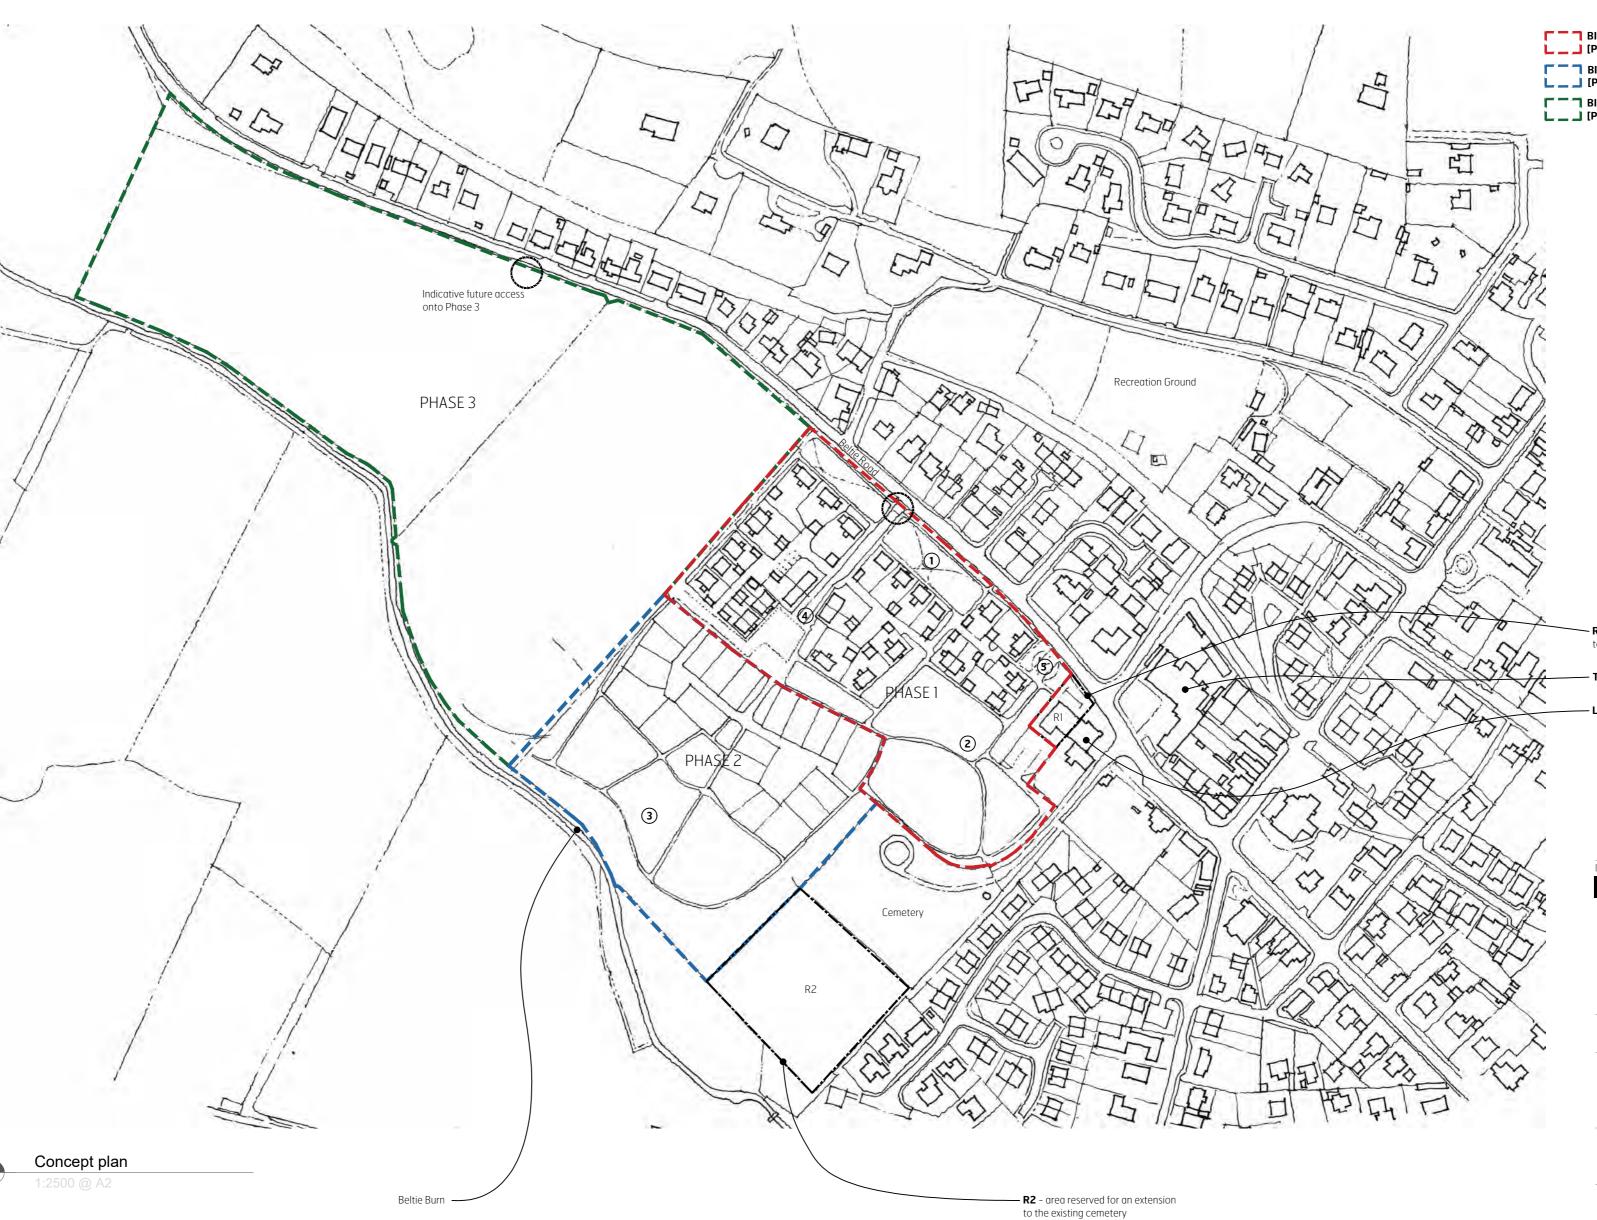

(5) Informal play area - an informal play area is proposed adjacent to the area reserved for a village hall extension and in close proximity of the Primary School.

Torphins - Concept Landscape Arrangement

Beltie Burn Informal Route

Village AnalysisTorphins, Aberdeenshire

1198 - Torphins

1.0 Introduction

This assessment looks at the village of Torphin, 23 miles west of Aberdeen.

widths are quite generous, ranging from 2-3m across the village.

2.0 Background History

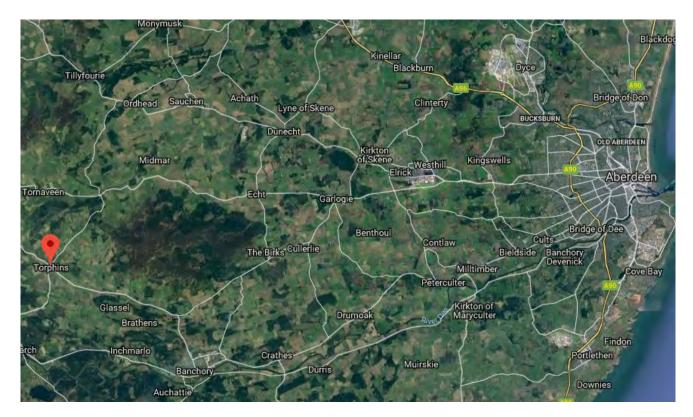

It is one of the larger villages in the area, with a population of 1500. The village has a primary school (with 250 pupils), a large park with play area, a car dealer, two tennis courts, a bowling green and a doctor's surgery There is variety of shops including a charity shop, a funeral directors, a Chinese takeaway and a chemist. There is a Church of Scotland church, a Town Hall and a pub. There is a 9-hole golf course located about a mile outside of Torphins. There was a railway station in the village from 1853 to 1966.

3.0 Existing Buildings Description

The buildings are predominantly stone clad, with some render clad and some timber outbuildings. The average building has 1.5 storeys, dormer windows and a front porch. The feel of the village has been retained throughout later developments, typically with small cottage sized houses occupying small plots. Generally quite large set backs from the roads, which are quite narrow, also reinforce the village identity. Pavements

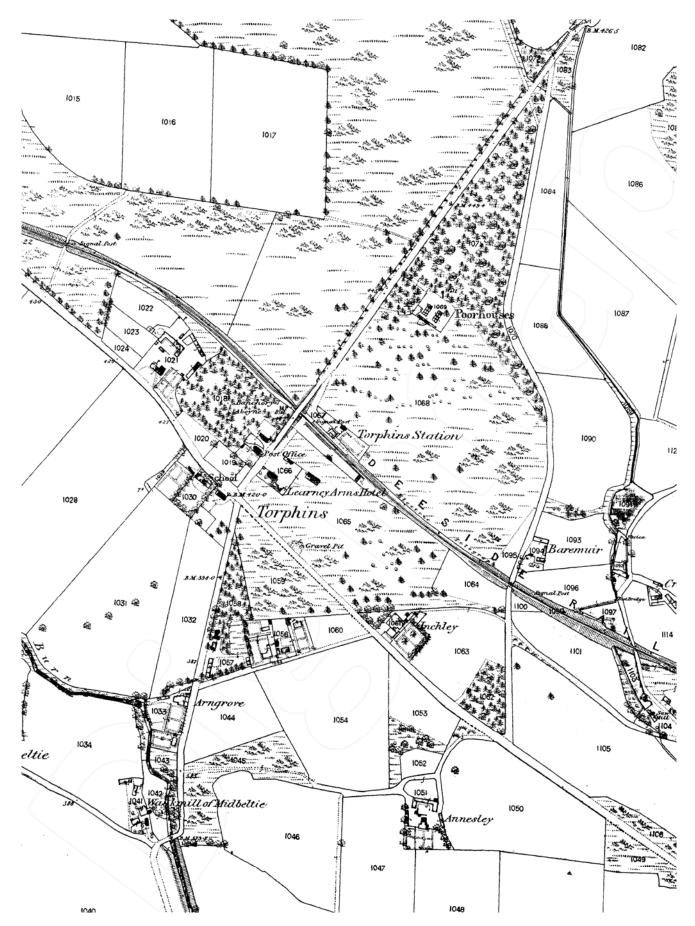

Typical building mix

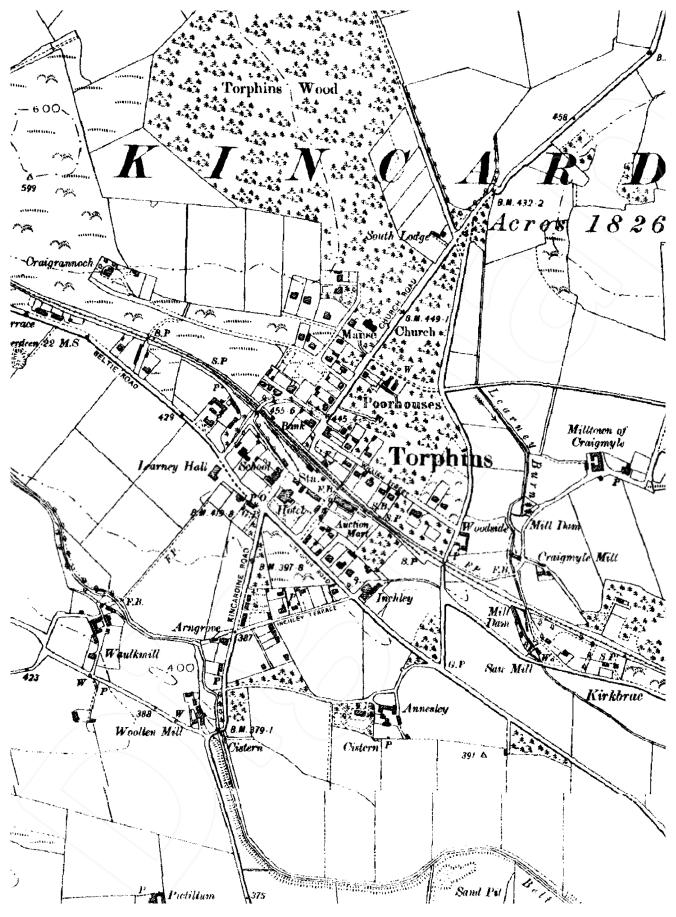

Village location

The same view in 2018

A two storey house with stone cladding, sash windows without glazing bars and a stone wall around the garden.

A single storey house with attached garage, tiled roof and render cladding.

The Learney Arms Hotel has white render walls, stone chimneys, sash windows with glazing bars and a slate roof.

A single storey house with stone cladding, slate roof and exposed rafter feet.

A 1.5 storey cottage with a half hipped roof, with a combination of stone and render with quoin detailing.

A 1.5 storey house with stone cladding, sash windows with glazing bars and gabled dormers.

A two storey semi-detached house with fully hipped roof, stone cladding and dormer windows.

A 1.5 storey cottage with stone cladding, front canopy and stone wall surrounding the garden.

A two storey double garage with room above, with a slate roof and a combination of stone and render cladding.

A 1.5 storey cottage with stone cladding, cat slide dormers and metal railings on an upstand boundary treatment.

A two storey house with stone cladding, fanlight and sidelights surrounding the front door and hipped dormers.

Torphins Primary School - A two storey building with stone cladding and sash windows.

Garden Boundary Enclosures

Boundary treatments are typically stone walls, sometimes with additional hedging or timber fencing.

Metal railings on upstands are also used throughout Torphins.

Architectural Details

Some properties in the area have entrance canopies, which are usually extended across from the front of a bay window. Some canopies are extensions of the main roof.

Dormer windows are a popular element within Torphins, with a wide variety of detailing, sizes and styles.

Many properties in Torphins have either external single garages or space to park within their plot, A handful of properties have internal garages as part of the dwelling.

Chimneys are common throughout Torphins, often more than one chimney per property, with the size and detailing varying widely.

Doors are typically timber with glazing panels. Some properties have solid timber doors with fanlights and sidelights.

Windows are predominantly casement, however there are sash windows too. Few windows have glazing bars.

Materials Palette

Stone cladding - the most dominant material in Torphins

Render and timber cladding can also be found, but it is far less common than stone.

Hard landscaping – gravel driveway

Hard landscaping - stone driveway

Hard landscaping - tarmac driveway

Slate roofs are used commonly throughout Torphins.
