

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Section 10 'Natural Heritage and Landscape' - various policies and associated text.

Policies should be amended to ensure they are consistent with one another. Some policies talk in terms of the 'acceptability' of environmental effects, others do not. This introduces inconsistency across policies and sets a higher policy bar to address in terms of some receptors.

Reason for change:

Policy E1.6 'Protected Species'

This policy states that 'development must seek to avoid any detrimental impact on protected species' (underlining added). Unlike policies E1.1 – E1.5, this policy does not introduce 'acceptability' which is an important caveat that should be introduced. All species, irrespective of importance or 'at risk' status, are protected by policy E1.6; therefore even a minor impact (and not significant in EIA terms) upon a protected species would result in a conflict with this policy as currently worded.

The introduction of 'unacceptable' into the policy would allow the decision maker to exercise a greater degree of judgement in applying this policy that is reflective of the differing scale of legislative protection given to protected species, as noted by paragraph 214 of SPP. It would also bring the wording of this policy into line with other policies in this Section of the Proposed LDP, such as E1.1.

The relationship between this policy (and other general policies) and the renewable energy policies needs to be consistent. For example, Policy C2.2 'Wind Energy' states that the Council will approve wind farms where they 'avoid unacceptable environmental effects'. There is therefore the potential for a scenario whereby effects upon protected species would not give rise to a conflict with Policy C2.2 but it would conflict with Policy E1.6 because of the absence of commentary relating to acceptability in the latter policy.

Policy E1.6 should be amended to make reference to acceptability, to bring it in line with other policies in Section 10 and also policies such as C2.2.
