

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 17 July 2020.

We recommend that you keep a copy of your representation for your own records.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Pitmedden Settlement Statement:

Site OP 2: Land South West of Pitmedden should be removed as an Opportunity Site from the Proposed Local Development.

Reason for change:

Site OP2 in Pitmedden has been zoned for 219 homes, a primary school and community uses. Developer bids (given the reference FR007 and FR006) were promoted for the site for 142 homes. Aberdeenshire Council have arbitrarily increased the number of homes for the site and included the requirement for a primary school and community facilities. This is somewhat surprising given that the Council themselves identified a number of material constraints to developing the sites in the Main Issues Report (MIR). The site is prime agricultural land and is home to protected species, namely badgers and red squirrels. The reality of the scale of development proposed is that mature tree trees which provide habitat and foraging for these protected species will have to be removed. The Council specify in their Proposed Plan a requirement for a loop road with two points of access – one on the B9000 and one on the B999. This cannot be delivered without removing a significant number of trees between the site and the B9000.

Further constraints to the development identified by the Council at the development bid/Main Issues Report stage are unresolved. These include the visually prominent nature of the site, especially on the southern and western approaches to Pitmedden. Indeed, Historic Environments Scotland (HES) have objected to the site's zoning through the MIR due to its impact on the nearby Udney Castle. Less visually prominent sites are available for development in the village. Further, the topography of the site, which results in its visual prominence creates challenges for creating SUDs which the Council also recognised in their MIR.

It would appear that this proposed allocation has not been considered fully, particularly as the Council have now added a primary school and community facilities to the proposal without considering whether it is deliverable and viable. It is noted that there is also a requirement to upgrade drainage infrastructure to accommodate the scale of development now proposed. It is concerning that the draft Action Programme is silent on the delivery of any of these and we therefore have to question the deliverability of the site. Scottish Planning Policy at paragraph 119 advises that planning authorities should be confident that land can be brought forward for development in the plan period. We do not have confidence that this site can be brought forward in the plan period.

We note that the Strategic Environmental Assessment for the FR007 part of the site has been assessed on the basis of the 32 home bid rather than the 110 homes now proposed. We question whether an appropriate assessment of the proposal has in fact been carried out. It would not appear to consider the increase in the number of homes or the proposed primary school and community facilities which result in material changes to the bid proposals.

A further matter of concern is that the Council's assessment of the part of the site that was FR006 advises that the site could in fact accommodate 566 homes (MIR). That combined with the 110 homes proposed on FR007 would mean 676 homes could potentially be applied for. This may be used to argue for the viability of the housing and additional facilities but would overwhelm the village. Indeed, we would argue that the 219 homes already proposed is out of scale with the existing settlement. Large allocations should be directed to the settlements closer to Aberdeen City as encouraged by para 3.11 of the Proposed Plan.

In summary, we believe the proposed allocation of site OP2 in Pitmedden should be deleted from the Proposed Plan. The site has a number of fundamental constraints which have been recognised by the Council themselves. We believe the scale of the development is too large particularly given the need for two points of access which will destroy woodland and red squirrel and badger habitats.
