PP0677

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 **RESPONSE FORM**

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 17 July 2020.

We recommend that you keep a copy of your representation for your own records.

ACCESSIBILITY

If you need information from this document in an alternative language or in a Large Print, Easy Read, Braille or BSL, please telephone 01467 536230.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Pitmedden Settlement Statement:

The site given the reference FR096 at Development Bid/Main Issues Report (MIR) in Pitmedden should be designated as an opportunity site (as a replacement for the Proposed OP2 site – see separate representations attached at Appendix 1) for 90 homes

Reason for change:

The site given the reference FR096 at Development Bid/Main Issues Report (MIR) in Pitmedden should be designated as an opportunity site for development. The site is under the control of a developer and can be delivered in the short term. Separate representations have been submitted in respect of Site OP2 included in the Proposed Plan for Pitmedden (Appendix 1). The scale proposed for OP2 is too great for the village and the site's development will be detrimental to wildlife, particularly protected species such as red squirrels and badgers. The site FR096 should be included in the Plan in its stead.

The proposal site FR096 is located to the North West of Pitmedden and is well related to the village as recognised by Aberdeenshire Council in their assessment of the site in the MIR. A masterplan (Appendix 2) was submitted as part of the development bid and this included a full site analysis to demonstrate the development is deliverable and how it could be delivered to complement its surroundings. Access to the site would be taken from the B999 with a secondary access available through Keithleigh Gardens for pedestrian use and vehicular access if required. A network for paths would be provided connecting to the village facilities which are within easy walking distance. They would also connect to bus stops which are within easy walking distance. The proposed masterplan allows for a green buffer to the perimeter of the site, strengthening the existing tree belt that bounds the site and Pitmedden Gardens and providing a defined edge to the village.

The site can accommodate up to 90 homes and would provide a mix of 2 to 4 bedroomed homes. A quarter of the homes will be affordable homes and Stewart Milne Homes have a proven track record of working with Aberdeenshire Council and Registered Social Landlords (RSLs) to deliver affordable housing to meet local needs. The total number of homes proposed is commensurate with the scale of the existing village and most importantly there is sufficient capacity within Pitmedden Primary School to accommodate pupils from the proposed development unlike the proposed OP2 development which would require a new primary school to be delivered. SPP encourages optimising the use of existing resource capacities which development of this proposed site would achieve this.

We believe that this site to the west of Keithleigh Gardens is far superior to the proposed OP2 site. It has strong visual containment and helps strengthen the western boundary of

the village. Integrated and usable open space with SUDs as a feature can be provided without any technical challenges and there is no requirement to remove significant areas of woodland. The scale of development is commensurate with the scale of the village and the site is within easy and safe walking distance of the village school. The site is under the control of a housebuilder and deliverable in the short term and should be zoned for the delivery of 90 homes instead of OP2. The remaining 129 homes should accordingly directed to other sustainable locations in Aberdeenshire such as Westhill, Balmedie and Blackburn.

APPENDIX 1

i.

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Pitmedden Settlement Statement:

Site OP 2: Land South West of Pitmedden should be removed as an Opportunity Site from the Proposed Local Development.

Reason for change:

Site OP2 in Pitmedden has been zoned for 219 homes, a primary school and community uses. Developer bids (given the reference FR007 and FR006) were promoted for the site for 142 homes. Aberdeenshire Council have arbitrarily increased the number of homes for the site and included the requirement for a primary school and community facilities. This is somewhat surprising given that the Council themselves identified a number of material constraints to developing the sites in the Main Issues Report (MIR). The site is prime agricultural land and is home to protected species, namely badgers and red squirrels. The reality of the scale of development proposed is that mature tree trees which provide habitat and foraging for these protected species will have to be removed. The Council specify in their Proposed Plan a requirement for a loop road with two points of access – one on the B9000 and one on the B999. This cannot be delivered without removing a significant number of trees between the site and the B9000.

Further constraints to the development identified by the Council at the development bid/Main Issues Report stage are unresolved. These include the visually prominent nature of the site, especially on the southern and western approaches to Pitmedden. Indeed, Historic Environments Scotland (HES) have objected to the site's zoning through the MIR due to its impact on the nearby Udny Castle. Less visually prominent sites are available for development in the village. Further, the topography of the site, which results in its visual prominence creates challenges for creating SUDs which the Council also recognised in their MIR.

It would appear that this proposed allocation has not been considered fully, particularly as the Council have now added a primary school and community facilities to the proposal without considering whether it is deliverable and viable. It is noted that there is also a requirement to upgrade drainage infrastructure to accommodate the scale of development now proposed. It is concerning that the draft Action Programme is silent on the delivery of any of these and we therefore have to question the deliverability of the site. Scottish Planning Policy at paragraph 119 advises that planning authorities should be confident that land can be brought forward for development in the plan period. We do not have confidence that this site can be brought forward in the plan period.

We note that the Strategic Environmental Assessment for the FR007 part of the site has been assessed on the basis of the 32 home bid rather than the 110 homes now proposed. We question whether an appropriate assessment of the proposal has in fact been carried out. It would not appear to consider the increase in the number of homes or the proposed primary school and community facilities which result in material changes to the bid proposals.

A further matter of concern is that the Council's assessment of the part of the site that was FR006 advises that the site could in fact accommodate 566 homes (MIR). That combined with the 110 homes proposed on FR007 would mean 676 homes could potentially be applied for. This may be used to argue for the viability of the housing and additional facilities but would overwhelm the village. Indeed, we would argue that the 219 homes already proposed is out of scale with the existing settlement. Large allocations should be directed to the settlements closer to Aberdeen City as encouraged by para 3.11 of the Proposed Plan.

In summary, we believe the proposed allocation of site OP2 in Pitmedden should be deleted from the Proposed Plan. The site has a number of fundamental constraints which have been recognised by the Council themselves. We believe the scale of the development is too large particularly given the need for two points of access which will destroy woodland and red squirrel and badger habitats.

PRIVACY NOTICE

LOCAL DEVELOPMENT PLAN PUBLIC COMMENT

The Data Controller of the information being collected is Aberdeenshire Council.

The Data Protection Officer can be contacted at Town House, 34 Low Street, Banff, AB45 1AY.

Email: dataprotection@aberdeenshire.gov.uk

Your information is being collected to use for the following purposes:

To provide public comment on the Aberdeenshire Local Development Plan. The data on the form will be used to inform Scottish Ministers and individual(s) appointed to examine the Proposed Local Development Plan 2020. It will inform the content of the Aberdeenshire Local Development Plan 2021.

Your information is:

Being collected by Aberdeenshire Council	X
--	---

The Legal Basis for collecting the information is:

Personal Data	
Legal Obligations	X

Where the Legal Basis for processing is either

Performance of a Contract or Legal Obligation, please note the following consequences of failure to provide the information:

It is a Statutory Obligation under Section 18 of the Town and Country (Scotland) Act 1997, as amended, for Aberdeenshire Council to prepare and publish a Proposed Local Development plan on which representations must be made to the planning authority within a prescribed period of time. Failure to provide details requested in the 'Your Details' section of this form will result in Aberdeenshire Council being unable to accept your representation.

Your information will be shared with the following recipients or categories of recipient:

Members of the public are being given this final opportunity to comment on the Proposed Aberdeenshire Local Development Plan. The reasons for any changes that the Council receives will be analysed and reported to Scottish Ministers. They will then appoint a person to conduct a public examination of the Proposed Plan, focusing particularly on the unresolved issues raised and the changes sought.

Your name and respondent identification number (provided to you by Aberdeenshire Council on receipt of your

submission) will be published alongside a copy of your completed response on the Proposed Local Development Plan website (contact details and information that is deemed commercially sensitive will not be made available to the public).

In accordance with Regulation 22 of the Town and Country (Development Planning) (Scotland) Regulations 2008 where the appointed person determines that further representations should be made or further information should be provided by any person in connection with the examination of the Proposed Plan the appointed person may by notice request that person to make such further representations or to provide such further information.

Your information will be transferred to or stored in the following countries and the following safeguards are in place:

Not applicable.

The retention period for the data is:

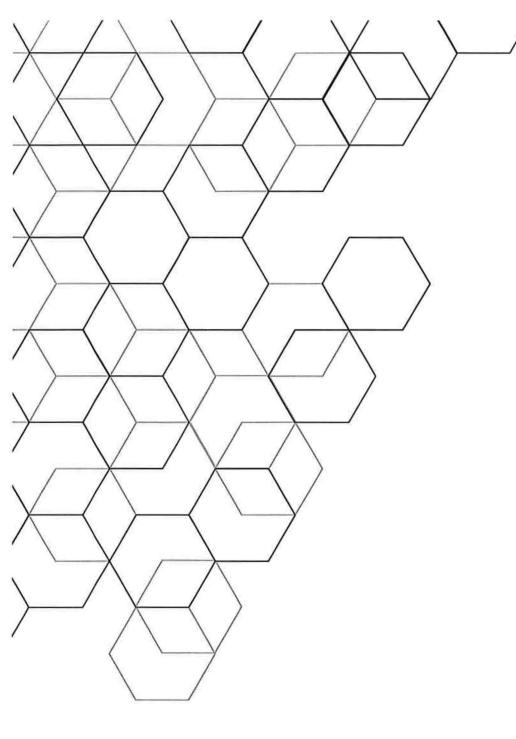

Aberdeenshire Council will only keep your personal data for as long as is needed. Aberdeenshire Council will retain your response and personal data for a retention period of 5 years from the date upon which it was collected. After 5 years Aberdeenshire Council will review whether it is necessary to continue to retain your information for a longer period. A redacted copy of your submission will be retained for 5 years beyond the life of the Local Development Plan 2021, possibly until 2037.

The following automated decision-making, including profiling, will be undertaken:

Not applicable.

Please note that you have the following rights:

- to withdraw consent at any time, where the Legal Basis specified above is Consent;
- to lodge a complaint with the Information Commissioner's Office (after raising the issue with the Data Protection Officer first);
- to request access to your personal data;
- to data portability, where the legal basis specified above is:
 - (i) Consent; or
 - (ii) Performance of a Contract;
- to request rectification or erasure of your personal data, as so far as the legislation permits.

APPENDIX 2

Local Development Plan 2021

Call for Sites Response Form

Aberdeenshire Council would like to invite you to use this form to submit a site for consideration within the next Local Development Plan (LDP 2021) for the period 2021 to 2031. A separate form should be completed for each site you wish to submit.

This is not a speculative plan. It is a fresh 'call for sites', so please re-submit any sites that do not or are not expected to have planning permission by 2021.

In order for the bids to be fully assessed, it is crucial that the questions in the bid form are answered fully and concisely with clear evidence of deliverability. The submission of a supporting statement, often known as a paper apart, <u>should be avoided</u>, and only assessments, such as a Flood Risk Assessment that has already been undertaken, should be submitted in support of your proposed site.

Completed forms and Ordnance Survey "Landline" site maps should be returned by email to: Idp@aberdeenshire.gov.uk

Alternatively, you can return the form and Ordnance Survey map by post to: Planning Policy, Infrastructure Services, Woodhill House, Westburn Road, Aberdeen AB16 5GB

All forms must be submitted by 31 March 2018.

I. Your Details

Name	
Organisation (if applicable)	Stewart Milne Homes

infrastructure and all other costs, such as constraints and mitigation are taken into account.	Please tick: \checkmark

If you have any further information to help demonstrate the deliverability of your proposal, please provide details. **See supplementary statement**

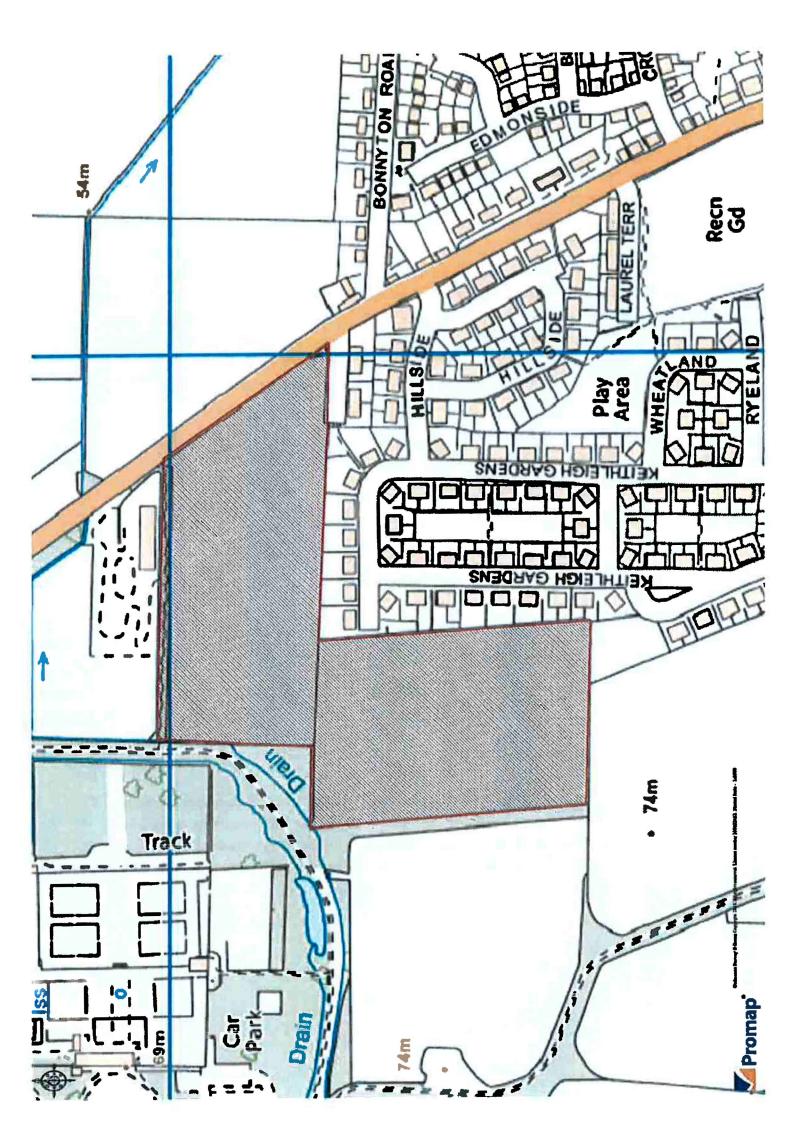

19. Other information

Please provide any other information that you would like us to consider in support of your proposed development (please include details of any up-to-date supporting studies that have been undertaken and attach copies e.g. Transport Appraisal, Flood Risk Assessment, Drainage Impact Assessment, Peat/Soil Survey, Habitat/Biodiversity Assessment etc.) See supplementary statement and masterplan

Please tick to confirm your agreement to the following statement:

By completing this form I agree that Aberdeenshire Council can use the information provided in this form for the purposes of identifying possible land for allocation in the next Local Development Plan. I also agree that the information provided, other than contact details and information that is deemed commercially sensitive (questions 1 to 3), can be made available to the public.

1.0 INTRODUCTION

1.1 This development bid is prepared and submitted by Stewart Milne Homes who have an option on the land to the north and west of Pitmedden. The land referred to as the subject of this bid document is identified in Figure 1 below. This supplementary statement should be read in conjunction with the "bid" form and masterplan document submitted by Stewart Milne Homes for the land at the north and west of Pitmedden. The documents set out the reasoned justification for zoning this site for residential development in the next Aberdeenshire Local Plan.

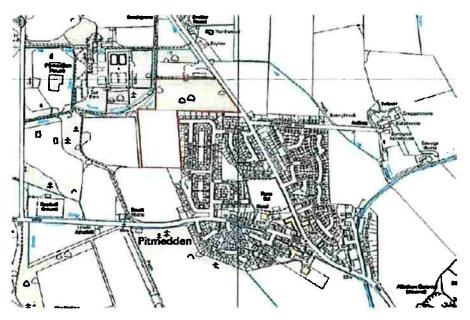

Figure 1: Bid Site boundaries

1.2 The Stewart Milne Group, of which Stewart Milne Homes is part, was founded in Aberdeen In 1975. Since then it has grown to become one of the UK's leading privately owned housebuilders. The Group have a commitment to building quality homes in places where people want to live. We are currently building in a number of locations throughout the UK but are proud to be headquartered in the North East of Scotland.

2.0 PITMEDDEN AND THE SITE

- 2.1 Pitmedden is a popular rural village in Aberdeenshire, situated midway between Ellon and Oldmeldrum, and approximately 16 miles from Aberdeen City Centre. The village has a number of local shops, Pitmedden Primary School, Church, Medical Centre, Village Hall, Football Club and mainland Scotland's first community owned, built, financed and operated wind turbine. Pitmedden is well connected to the transportation network lying on the B999 Aberdeen to Tarves route and is only 6km from the A90 Trunk Road.
- 2.2 The proposed site wraps around the north-western edge of Pitmedden, gradually rising upwards towards the south-western corner and measuring approximately 16.3 acres (6.6 hectares) in area. The area to the north of the site is allocated for employment purposes and is identified as BUS1 within the 2017 adopted LDP. The BUS1 site bounds the B999 and forms the upper most reach of the settlement to the north. Pitmedden House and gardens exists to the north-west and this is set within the extensive wooded grounds which form a 3m buffer between the house, gardens and the promoted site.

3.0 THE PROPOSAL

3.1 Following full analysis of the site and the preparation of a masterplan for the site, our proposal is to bring forward the land for residential development. Access to the site would be taken from the B999 Tarves Road with a southerly, secondary access point being from Keithleigh Gardens. The vehicular connections would be accompanied by a permeable network of footpaths with a further dedicated footpath link being formed on the southern boundary of the site connecting to Keithleigh Gardens. The site would allow for a green buffer to the perimeter of the site further strengthening the existing tree bett that bounds the site and Pitmedden House grounds. Open space to the front of the site bounding onto the B999 will create a green gateway entrance that will frame the western boundary and access, creating a green and welcoming entrance to the site. Maintaining the site's links with the surrounding land to the south is paramount and a substantial green open space with landscaping and footpath connections are identified to this boundary.

4.0 SUPPLEMENTARY RESPONSES TO QUESTIONS

4.1 Using the question numbers on the bid form we would supplement our responses as follows:

Question 7: Planning History – The site has previously been promoted under reference FM063. The site was zoned in the previous Proposed Plan as site P1 (as a protected area to protect the setting of the settlement) and representations were duly submitted and considered

at the Examination. The Reporter concluded the site was not required to conserve the landscape setting of the village and thus removed the P1 zoning.

Question 8: Proposed Use - The site is being proposed for residential development and has the capacity to accommodate 90 homes. This would include a mix of homes including detached, semi-detached and terraced housetypes providing a range of 2, 3 and 4 bedroomed homes. The exact mix would be determined at the time of a planning application, taking account of the prevailing market conditions and affordable housing requirements.

Question 9: Delivery Timescales – There are no constraints that would delay the development of the site. Planning applications would be worked on as soon as the site is zoned in an adopted Local Development Plan.

Question 10: Natural Heritage – As referred to above the site is located adjacent to the designed gardens of Pitmedden House. The development will have no impact on the designated landscape as confirmed by the Reporter to the last Local Development Plan Examination.

Question 12: Landscape Impact – The landscape capacity of the site has been fully analysed as part of the preparation of the masterplan. The site has strong containment with mature trees around the western and northern boundaries. The development of the site will ensure any root infrastructure will not be impacted upon.

At present the village edge at Keithleigh Gardens is poorly defined and the proposed development as shown on the masterplan provides the opportunity to enhance this while creating a defensible edge.

Question 13: Flood Risk – SEPA's Indicative Flood Map shows no parts of the site are prone to flooding.

Question 14: Infrastructure

- a) Water/drainage new foul and surface water sewers will be provided to serve the development.
- b) Education There is significant spare capacity in Pitmedden Primary School as it is only at 69% capacity with a forecast rise to 75%. We note that Meldrum Academy is forecast to go over capacity in the near future and that Aberdeenshire Council are planning to increase capacity. Developer obligations would be provided where appropriate.
- c) Transport The site is well located in terms of public transport. A Transport Assessment has not been carried out at this stage but will be prepared as part of a planning

application. The impact of the proposed scale of development is not forecast to be significant.

The site is within walking distance of existing bus routes to Aberdeen, Ellon. Banff and Oldmeldrum. The majority of facilities in the village are within easy walking distance of the site.

e) Open Space – The masterplan shows that 40% of the site has been made over to useable open space.

Question 15: Other potential constraints – a small part of the site is Grade 3.1. The loss of prime agricultural land as part of the proposed development is not significant.

Question 17: Community Engagement – No engagement has taken place at this time but we will offer to meet with the Community Council in due course.

Question 18: Residual Value and Deliverability – Stewart Milne Homes are confident that the development of the site is viable and deliverable. There are no infrastructure constraints that would delay the delivery of the proposed development.

5.0 JUSTIFICATION AND CONCLUSIONS

.

- 5.1 The proposed development site at Pitmedden is considered to be an appropriate location for additional housing which is set in a prime location on the north western boundary of the village. The site can accommodate a high quality residential development, with the emphasis on landscaping and open space to integrate the development into the landscape and with existing development in the settlement. The creation of integrated open and usable public space is part of the proposals. With additional housing allocated within the settlement, the community may be able to support wider facilities that can only be supported through critical mass of population.
- 5.2 The site is "well related" in planning terms to the existing village and this has previously been accepted by Aberdeenshire Council in their assessment of earlier bids. The fields in question are actively farmed and have limited ecological value.
- 5.3 In addition to the site being well related to the existing village and having the capability of providing a constraint free development it is also within easy and safe walking distance of Pitmedden Primary School which has spare capacity. Appropriately scaled development is required to ensure the viability of such facilities is not lost.
- 5.4 It is therefore requested that this site be zoned for up to 90 homes to be delivered in the short to medium term.

PITMEDDEN, ABERDEENSHIRE Village Expansion March 2018

PITHEDDEN VILLAGE EXPANSION STRATEGIC MATERIAN

Introduction

Pitmedden is a thriving rural village in Aberdeenshire, situated midway between Ellon and Oldmeldrum, and approximately 16 miles from Aberdeen City Centre. The village has a number of local shops, Pitmedden Primary School, Church, Medical Centre, Hotel, Hall, Football Club and mainland Scotland's first community – owned, built, financed and operated wind turbine.

Picnedden village is home to Picnedden Gardens which was passed to the National Trust for Scotland in 1952. The garden has an extensive five acre walled garden and glasshouse which at present has over 40,000 annual plants. There is also the Museum of Farming Life Visitor Centre, wildlife garden and woodland walk.

The Development Site

The proposed size measures approximately 6.6 hectares and wraps its self round the North West corner of the existing settlement of Pitmedden and is an ideal location for an expansion to the village. A dense band of mature woodland separates the size from Pitmedden Gardens to the North West, this woodland continues along the western boundary. The B999 forms the eastern boundary offering easy access to the village centre. The size is currently in agricultural use.

Development Site

Existing Features

Mature trees and woodland trails offering a well used amenity space for local residents and habitat for local wildlife, surround the north and western boundaries of the development site. Views through the trees reveal the historic walled garden of Pitmedden gardens establishing a unique sense of place.

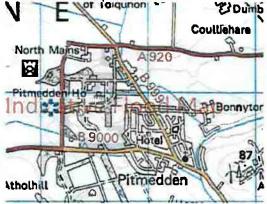

The site naturally splits into two developable areas separated by a dry scone wall, band of mature trees and level change. The upper portion of the site can be access through the existing community on Keithleigh Gardens. The south eastern corner of the upper site joins an area of community open space which could be enhanced and extended.

The lower portion of the site enjoys street frontage on to the B999 providing an opportunity to create a new sense of arrival to the village from the north. Existing housing along the southern boundary is elevated with retaining walls along this edge. A tree lined trail to the north provides screening to the neighbouring industrial building.

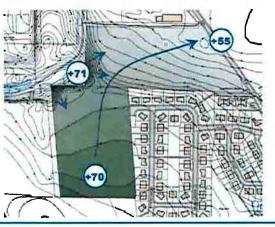

Flood Risk

SEPA's indicative Flood Map below confirms that the site is not at risk of flooding and indicates no areas prone to surface water within the development site.

Topography

The land generally slopes from south to north from a high point of 70m to approximately 55m where the site boundary meets the B9000. The site also slopes up steeply towards the woodland belt surrounding Pitmedden Garden. This level change coupled with the mature woodland zone provides natural separation between the adjacent sites preserving the special character of the Pitmedden Gardens setting.

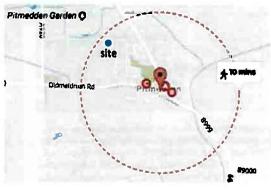

Views

The photos on the following page record the existing character of the site.

Access and Connectivity

Although on the edge of the settlement of Pitmedden, the development size is still within a 10 minute walk of the village centre. 3 bus stops serve the village and are highlighted on the map below. Stagecoach run a number of service (290 & 291) from Pitmedden, at Bronie Crescent into Aberdeen which takes around 50 minutes. Buses providing access to Elon, Dyce, Peterhead and Inverturie are also in operation at key times throughout the day.

Pitmedden Community Bus is a service run by volunteers to provide people from the Tarves and Pitmedden areas with transport to Elion Episcopal Church on a Sunday morning.

Utilities

The following utility information was sourced from an external consultant to inform the initial design concept :

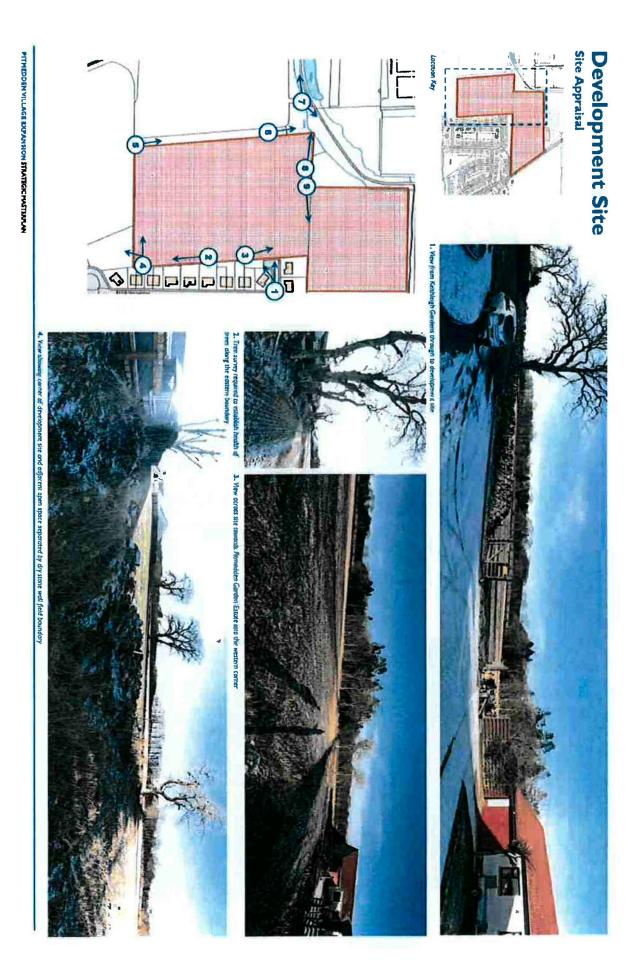

- BT OPENREACH Layout
- SSE Electric 1 of 2 (scale 1-1250)
- SSE Electric 2 of 2 (scale 1-1250)

No Gas Records – Gas not present in development area

Water & Wastewater Plan

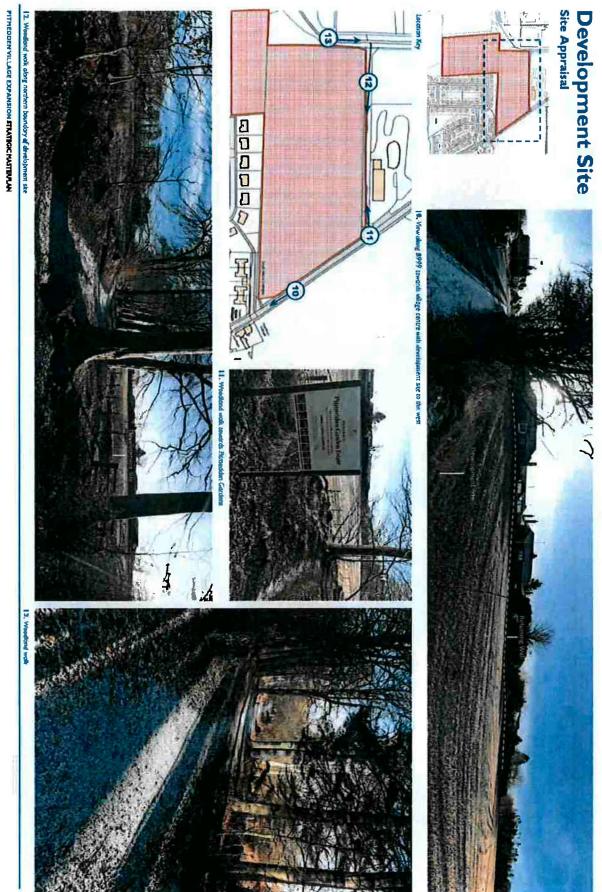

The proposed development can be serviced by an appropriate means of drainage and water supply is also available.

PITMEDDEN VILLAGE EXPANSION STRATEGIC MASTERPLAN

6. Network of woo A STREET B. Vew bock along field boundary towords fitmedden Gardens

PITMEDDEN VILLAGE EXPANSION STRATEGIC MASTERNAN

Local Area

Site Context

The village of Pitmedden is a rural community which consists of a range of community facilities and small businesses.

The majority of housing within the heart of the village follows the traditional one and a half storey typology. A number of recently approved applications will see the introduction of larger two storey dwellings on the outskirts of the village.

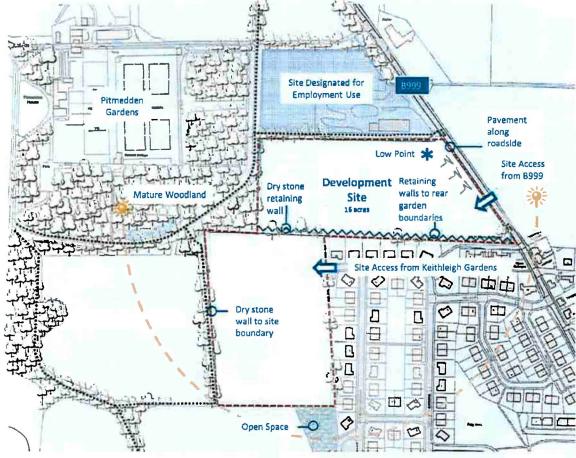

PITMEDDEN VILLAGE EXPANSION STRATEGIC MASTERILAN

Development Site

Site Opportunities / Constraints

The key opportunities/constraints which influence the site are:

- Tiered topography naturally splits development along line of field boundary
- Proximity to Pitmedden Gardens National Trust Site mature woodland and topography create natural separation between adjacent sites
- Beautiful woodland backdrop providing amenity space for local residents and a habitat for wildlife
- Proximity to existing settlement and community facilities school etc.
- Development site sits adjacent to site designated for future employment use
- Opportunity to improve sense of arrival into the village from the north approach.
- Dry stone walling along field boundaries adds to character
- Existing housing sits at a higher level along the southern boundary with a
 retaining wall dealing with the level change
- Access from B999 restricted due to levels along site boundary proposed sketch layout utilises the point at which entrance to the site would take advantage of natural site levels
- Access through Keithleigh Gardens integrates development into existing community
- Opportunity to expand on and enhance existing open space to the south of the development site
- Explore opportunities to link into existing network of pedestrian paths

Development Site Option

Vision Site Layout

01 Entrance to lower portion of development site from B999 02 Entrance to upper portion of development site through Keithleigh Gardens 03 Industrial building
