

# PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

**This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.**

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to [ldp@aberdeenshire.gov.uk](mailto:ldp@aberdeenshire.gov.uk) or send this form to reach us by 17 July 2020.

We recommend that you keep a copy of your representation for your own records.

# YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

**Modification that you wish to see** (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

## **Section 5 – The Spatial Strategy**

**The distribution of housing to meet the housing allowances in the Aberdeen Housing Market Area should be amended to ensure allocations are made in sustainable locations in proximity to Aberdeen City.**

**The Spatial Strategy Plan on Pg21 is not clear as the circles do not clearly show the level of allocations made. This should be changed to numerical references and only show new allocations.**

## **Reason for change:**

Paragraph 3.11 of the Proposed Plan advises that “the area around Aberdeen City continues to be the powerhouse of economic activity in the region and so the land allocations made in the settlements around Aberdeen City reflect this”. This however is not the case as many of the new allocations are not in marketable locations around the City but rather in tertiary market locations. For example, settlements such as Stonehaven, Portlethen and Westhill to name a few have no material new allocations whilst settlements such as Pitmedden, Tarves, Belhelvie and Methlick with limited employment and other services have had significant allocations.

Using the Council's figures in terms of meeting the allowances they are only just met. Given the reliance on more peripheral locations within the Aberdeen Housing Market Area (AHMA) does give the confidence that enough homes will be delivered. The Spatial Strategy should be amended to place greater focus on deliverability and include additional allocations in marketable and sustainable locations close to Aberdeen.

We do not have any evidence to demonstrate that the Council have made up shortfalls in the Kincardine and Mearns Strategic Growth Corridor. Officers advised the Infrastructure Services Committee on 3 October 2019 (Appendix 1 – Issue 3) that due to the Area Committee removing sites at Portlethen, 85% of new sites in the Strategic Growth Area would be removed and other sites may have to be included. We are not aware of new sites being included. The Council should provide further information in this regard.

The Plan on page 21, is not clear as the circles do not clearly show the allocations made and also would appear to include historical allocations which in some cases are constrained.

## REPORT TO INFRASTRUCTURE SERVICES COMMITTEE – 3 OCTOBER 2019

### ABERDEENSHIRE PROPOSED LOCAL DEVELOPMENT PLAN 2021 - CONSIDERATION OF MAIN ISSUES REPORT SUBMISSIONS

#### **1 Reason for Report / Summary**

- 1.1 To resolve outstanding inconsistencies arising from the consideration by Area Committees of the Main Issues Report Issues and Actions Papers.

#### **2 Recommendations**

**The Committee is recommended to:**

- 2.1 Consider the views of Area Committees on the content and substance of the policies, settlements and proposals following evaluation of the 'Issues and Actions' of the Main Issues Report, for inclusion in the Proposed Local Development Plan; and**
- 2.2 Recommend to Aberdeenshire Council the outcomes of the Area Committee Meetings held between 20 August and 17 September 2019, having discussed and resolved the inconsistencies identified by Officers.**

#### **3 Purpose and Decision Making Route**

- 3.1 The preparation of a Local Development Plan is a statutory process with authority delegated to Aberdeenshire Council to submit a "Proposed Local Development Plan" to Scottish Ministers for examination. This represents the settled view of the Council as to the form and content of the Local Development Plan 2021.
- 3.2 Discussion has taken place with Area Committees on the development and analysis of the Main Issues Report (MIR). The MIR is a statutory precursor to a Proposed Local Development Plan. This has included informing the issues, informally evaluating the bids and discussing the content of the MIR during 2018 cumulating in the overall consideration and approval to publish by Infrastructure Services Committee on 29 November 2018. Publication of the MIR was on 14 January 2019. Accompanying the Report was the [Interim Environmental Report for the Strategic Environmental Assessment](#), a [Habitats Regulations Appraisal Record](#), and a [Strategic Flood Risk Appraisal](#). These documents were subject to a full and comprehensive public consultation.
- 3.3 Area Committees met between August and September 2019 to consider "Issues and Action" evaluations of the 1085 responses received. Officers have assessed where inconsistencies with national policy, conflicts between the views of Area Committees, or the legality of actions. The purpose of this Report is to resolve these issues to inform the final content of the Proposed Local

Development Plan to be presented to Aberdeenshire Council on 21 November 2019.

## **4 Discussion**

- 4.1 A summary of the Area Committee meetings are presented at **Appendix 1**. Minutes are available on the Committee pages at <http://committees.aberdeenshire.gov.uk/>. From these Minutes the following issues have been identified that may require further consideration. A summary of extracts from the Issues and Actions papers is provided at **Appendix 2** to allow the Committee to review the issues that were raised in the public consultation, although this should not be seen as precluding Area Committees consideration of any other issues.

### **4.2 Kincardine and Mearns Committee**

At the Kincardine and Mearns Area Committee meeting held on 20 and 21 August 2019, the following issues require to be resolved:

#### **Issue 1**

Concern was expressed regarding the proposed indicative higher density of new development sites. A lower density would result in additional development allocations coming forward and promote low density development (Issue 8 Shaping Homes and Housing, Recommendation 1).

##### **Officer Response**

This statement is not agreed as it would be misleading to allocate sites for the numbers of houses proposed by landowners and developers when experience indicates that significantly higher densities are frequently sought. As an indicative density the use of 25 homes per hectare represents a good approximation for the density of development. This density takes into account the need for 25% of the site to be affordable homes and up to 40% of the site being identified as open space.

#### **Issue 2**

At Kirkton of Maryculter six sites in the countryside were supported (Issue 136 Kirkton of Maryculter, bids KN008 to KN012).

##### **Officer Response**

These sites represent proposals that are contrary to the current and emerging policy on rural development in the Aberdeen Housing Market Area and the Green Belt. It is considered that this allocation marks a precedent that could undermine the policies on rural development by giving support to rural development in places that cannot otherwise be justified and are contrary to the principles of sustainable development.

#### **Issue 3**

At Portlethen a site for 300 homes was removed from consideration for inclusion in the Proposed Local Development Plan (bid site KN027). At Marywell a further site for 52 homes was removed (bid KN029) (Issue 145 Portlethen, bid KN027 and Issue 140, bid KN029).

#### **Officer Response**

These two sites represent a significant proportion of all the new allocations being made in the Plan for the Aberdeen to Stonehaven Strategic Growth Area. This removes approximately 85% of the “new” housing allocations within the Strategic Growth Area, thus placing reliance on existing allocations. The relatively small additions made elsewhere to the wider Aberdeen Housing Market Area housing allowances may not be able to cope with this loss. One or other of the two sites may need to be reintroduced should housing land supply in the Aberdeen Housing Market Area fall below the Strategic Development Plan requirement.

#### **Issue 4**

At Woodlands of Durris a current and half-completed site recommended for inclusion in the Local Development Plan 2017 was removed. (Issue 151 Woodlands of Durris, bid KN074).

#### **Officer Response**

This site should be reintroduced to the Proposed Local Development Plan as an existing commitment (OP1). It is part of an existing marketable allocation to which road access has been provided. The developer could apply for consent, and make a start on site development, at any time on the basis of the existing Local Development Plan. Removal of the site provides no clarity for the local community.

### **4.3 Banff and Buchan Area Committee**

At Banff and Buchan Area Committee meeting on 27 August 2019 only one major issue was raised that requires to be resolved:

#### **Issue 5**

The extent of the coastal zone should be reviewed before publication to something more meaningful, and the priority given to this policy reduced (Issue 7, Recommendation 4).

#### **Officer Response**

It is the intention of the Planning and Environment Service to review the coastal zone for the Local Development Plan beyond 2021. This would be at an appropriate time in the process of which Members will be made aware. It is considered that the existing boundary and the weight given to it should be maintained.

### **4.4 Garioch Area Committee**
