

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

No Modification requested and support provided to allocation of OP1 Gourdon as an important allocation that will be effective to meet the required housing allowances to 2032.

Reason for change:

Fotheringham Homes have an excellent track record of delivery in Aberdeenshire with previous projects in Gourdon, Stonehaven and Inverbervie. Established in 2002, Fotheringham Homes is a family owned and managed company, drawing on over 35 years of building experience. They pride themselves on building quality homes and seek to provide quality, flexibility and choice. The developer also has a track record of delivery of development at Braeview Gardens to the East of Brae Road in Gourdon and has close contact with the local community being located in the industrial estate to the north of the site. Since the site was identified in the Proposed Plan Fotheringham Homes have received enquiries from 10 individuals looking to put their name down for contact regarding the future houses, indicating a strong local demand.

Following initial submission and comment from Aberdeenshire Council and SNH on the proposed development a revised site boundary and development proposal was submitted. The details of this are contained within the attached Main Issues Report Response and Site Layout. The scale of development proposed was reduced to 49 units and an area of open space provided around the access to the site to ensure that views on entering Gourdon are retained to the sea. Additionally the extent of development to the west was reduced. Further consideration of the landscape measures are set out in the Main Issues Report Response.

The allocation of this effective site is particularly important in light of the difficulties and lack of effective land for housing in the Rural Housing Market Area part of Kincardine and Mearns. There are constraints to delivery at Laurencekirk, with development reliant on a junction improvement, this includes a significant reduction in the allocation of OP1 in Laurencekirk. This will have an effect on the available the land supply in this area. Outwith Laurencekirk there are only two new allocations made in Proposed Aberdeenshire Local Development Plan in the Rural Housing Market Area in Kincardine and Mearns. One being OP1 at Gourdon and the other being OP3 in Luthermuir for 13 houses. There are increases in other undeveloped allocations that are carried forward from previous plans, but given allocation numbers are indicative this is unlikely to assist in bringing forward these proposals where there are existing constraints to delivery.

Affordable housing is desperately needed across Scotland and Aberdeenshire, this development provides an opportunity for not only housing to support local needs and services in Gourdon, but also providing new affordable housing stock.

The proposal includes for retention of cemetery land in the indicative layout with necessary parking to ensure the Council can considerably extend this facility as previously planned.

Concerns raised with the proposal previously within the Main Issues Report in respect of the layout and impact on landscape have been reviewed with an amended site boundary identified in the Proposed Aberdeenshire Local Development Plan. A masterplan will also be required to be discussed with the local community and agreed with the Council to ensure that the points noted within the allocation will be suitably addressed. The developer is committed to working with the community and the Council on this to ensure that a quality development can be delivered.

Agricultural land will remain in use to the east of the site by the site owners who own Sillyflatt Farm to the north.

Issues of concern regarding development have been suitably addressed within the attached Main Issues Report Response and will be resolved in detail through a masterplanning exercise with the local community and the Council. This has provided the Council with the confidence to allocate this site for development. This site forms an important part of supply of effective housing allowances in this Rural Market Area and its allocation is supported.
