PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Representation against non-allocation of Site FR089 Keir Farm. Site should be allocated for up to 600 homes, a new primary school and associated uses and infrastructure.

Reason for change:

The land at Keir Farm was previously designated as a site with "Reserved" status in the Main Issues Report of this LDP process. A representation was made by Bancon Homes in response to the MIR to the effect that there was sufficient concern about the deliverability of other sites in the Blackdog to Peterhead strategic growth corridor that Keir Farm should be allocated rather than have "Reserved" status.

Aberdeenshire Council have made the decision to remove the concept of a "reserved" status. We disagree with this (especially in light of the extended currency of LDP's moving from 5 to 10 years), but our key concern is the deliverability or effectiveness of large-scale allocations in the Blackdog-Peterhead corridor.

Since responses were made to the MIR, a planning consent has been granted in respect of 550 homes at Menie. This application was made by the landowner who is not a member of Homes for Scotland, rather than by a developer or housebuilder in whose hands the site would be considered effective and we continue to have concerns regarding the applicant's commitment to delivery of these homes.

We also continue to have concerns regarding the deliverability of the allocation at Cromleybank, which has stood for over a decade and must by now be considered to be constrained. The programming of 386 units by 2026 and 980 units by 2031 is seriously questioned. Other sites in this strategic growth corridor must be allocated to make up for this almost-certain shortfall in delivery during this plan period.

Site OP1 (Balmedie) was noted in the 2019 HLA as being constrained, but continues to be allocated, for an enlarged capacity.

The above three sites, in themselves comprises a total allocation of 1,610 units.

We consider it is therefore essential that new allocations are made within this corridor and we therefore challenge the reasons given by Aberdeenshire Council as to why Keir Farm was not allocated in the MIR, but rather “Reserved”.

In the MIR, Aberdeenshire Council considered that proposals for the site were not sufficiently thought through, however a masterplan was submitted and this also includes for the possibility that the required primary school for Balmedie could be accommodated within the site. Rather than being separated from the existing settlement by the A90, it rather lies within the bounds of the new B977 which would form a long-term defensible boundary as well as leaving it contained as part of the existing settlement. It is connected to the village by means of an existing underpass, and is readily accessible from the main road network by a grade-separated junction.

The image below shows the site within the context of the above roads, and connections.

High level indicative layout, showing the relationship to the existing village, potential primary school site, and roads hierarchy

A high-level masterplan has been prepared, showing how the site could function around a central core, including a replacement primary school, and other services and amenities. There is a central pedestrian core and a peripheral vehicular route. With further refinement this could deliver a high-quality expansion of the existing settlement.

In terms of housing land allocations, despite the position taken in the Proposed Plan (Appendix 6 Housing Land Allocations) we contend that there remains a housing land shortfall within the Aberdeen Housing Market Area (HMA). A surplus of 80 units is identified in the LDP in response to the SDP Housing Supply Allowance.

However, Homes for Scotland, analyse the housing land supply within the Aberdeen HMA as being short by c.483 units (a difference of 563 units where sites are considered to be constrained or non-effective). Worryingly, there are a number of sites where the bid or previous allocation has been increased by Aberdeenshire Council (in total 287 units) including some sites where this is seemingly without request, where there is no evidence of housebuilder involvement or the site is not evidently in effective ownership.

802 units within Aberdeenshire Council's analysis of housing land supply are from sites of 50 units or below. It is contended therefore that there is significant risk of a housing land shortfall as measured against the SDP Allowance, and this site would be effective in meeting that shortfall.

In addition, whilst not lying within the same area of Aberdeenshire but nonetheless in the Aberdeen Housing Market Area (AHMA), representations have been made previously by Bancon Homes regarding the continued under-delivery of housing at Chapeltown of Elsick. We do not object to the principle of this allocation, but continue to request that Aberdeenshire Council recognise (1) the significant proportion of the effective land supply within the AHMA that Chapeltown constitutes and (2) the number of completions arising from Chapeltown continues to be well below those envisaged in either the 2012 or 2017 LDP's.

In terms of the first point above, Appendix 6 of the Proposed Plan identifies a total housing land supply for the Aberdeen to Laurencekirk SGA of 6,030 homes. Chapeltown is allocated for a total of 4,045 homes, with only 164 delivered as of Jan 2019 (Housing Land Audit 2019). This leaves 3,881 homes remaining, constituting 64% of the total effective housing land supply for this SGA.

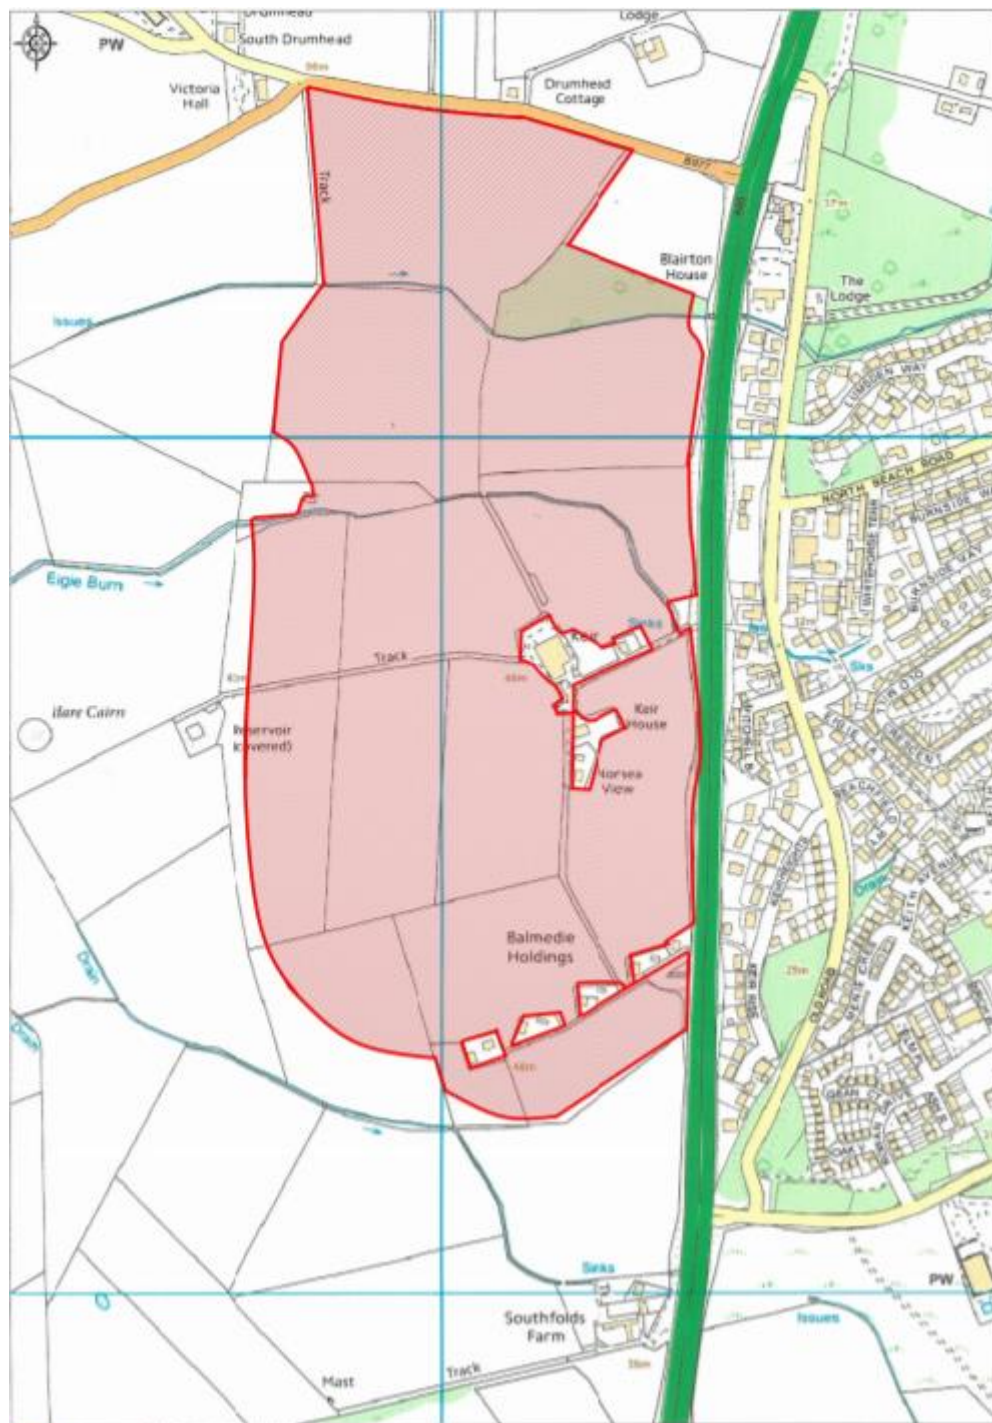

In relation to the second point, the delivery of 164 units since commencement in 2015 equates to a build rate of approx. 40 units per annum. Extrapolating this out, even at a more generous 60-80 units per annum, would leave a completion total of only 1,184 units by 2031. This would leave 2,861 units undelivered during the plan period.

This further throws into focus the risks associated with Aberdeenshire Council's assessment of effective land supply, and that without further allocations, the delivery of homes across the AHMA will be well below that required by current and prospective residents.

It is contended therefore that there is significant risk of a housing land shortfall as measured against the SDP Allowance, and this site would be effective in meeting that shortfall.

We submit that this site should be allocated for up to 600 homes as well as supporting uses and infrastructure.

The site is in single ownership & control and is deliverable, meeting the effectiveness tests within the Circular.
