PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

I would like to object to the Proposed Local Development Plan for the changes in Potterton. The Proposed Local Development Plan would open us up to mass development and I do not wish for this to happen to the village of Potterton, allowing for over 50% increase in housing over 5 years, as well as potential for the village to triple in size if this onslaught of building were to continue. I object to OP1, OP2 and the destruction of the green belt around the village of Potterton.

Reason for change:

Biodiversity

Within the supporting document (Strategic Environmental Assessment of New Allocated Sites and Alternative Bids-Formartine), there is a clear omission of information with regards to biodiversity. Other sites within the village refer to the negative impacts of Biodiversity as: *"Ythan Estuary, Sands of Forvie and Meikle Loch SPA and Sands of Forvie SAC are set to the north. This site is at a very close proximity to the qualifying sites and likely to have an impact on the qualifying species."*

The proximity to these areas of biodiversity is noted throughout the report for proposed sites around Potterton but has been omitted for sites OP1 and OP2. Both OP1 and OP2 are within the same close proximity to "qualifying sites" and "qualifying species". The Local Authority cannot choose to use information for one proposed site but omit it for another, when the sites are all within the same close proximity.

As an example, it could be argued that Milton of Potterton, neighbouring OP1, is in fact closer to Sands of Forvie than FR121 at Gourdie Park. (Milton of Potterton, the border of OP1 site is 13.3 miles from Forvie Sands, whilst Gourdie Park is 14.1 miles away from Forvie Sands.) This is an inaccuracy of reporting by omission. This should have been included when discussing biodiversity on OP1 and OP2.

Previous Local Development Plans

In the Submission of the Report of the Examination, dated 19th Dec 2016, planning reporters acknowledged that no modifications to the Green Belt were recommended for Potterton. Under Settlement Features, *"Paragraph 49 of Scottish Planning Policy identifies that a Green Belt should support the Spatial Strategy by directing development to the most appropriate locations, protecting and enhancing character, landscape setting and identity of a settlement and provide access to open space. It is appropriate to maintain the Green Belt around Potterton to support the vision for the settlement"*. Potterton was excluded from Strategic Growth Area at this time.

"No evidence has been provided to substantiate the concern that the long-term viability of existing services may be threatened unless growth is permitted. Even if this were the

case, this would not be an adequate basis for permitting the large-scale growth being sought.”

In this time, nothing has changed that should allow such growth to be permitted in this village or within the Belhelvie area, therefore bid sites for large scale development should not have been included within the Proposed Local Development Plan for Potterton.

In light of Covid-19, Brexit and the housing market’s over-reliance on oil and gas
Crucially, we face an unpredictable economic recovery following the Covid-19 pandemic, and the reporting within the Proposed Local Development Plan will not be able to include the damage caused by Covid in terms of human tragedy and the socio-economic impact on Aberdeenshire. The reports are never going to be entirely current and are based on establishing needs for housing in the future. However, it is important for Aberdeenshire Council to realise that these reports are beyond outdated for the current economic climate. As previously mentioned, there are 7.2 years of land supply availability for Aberdeenshire within the 2019 Housing Land Audit. This was before the pandemic and before the drop in the oil price. The UK’s oil and gas industry could lose as many as 30,000 jobs over the next 12-18 months, according to Oil and Gas UK. We cannot ignore the impact those job losses will have on our area and the existing housing market. The Proposed Local Development Plan is setting 3000 houses in Formartine alone. It is impossible to fathom how the local authority can claim there is justifiable need for this level of housing now when the existing market is already struggling.

“Local economic performance is intrinsically linked to the performance of the oil and gas industry.” (Aberdeenshire Council’s Monitoring Report, Nov 2019)

“Local economy’s reliance on the oil and gas industry.” (Aberdeenshire Council’s Monitoring Report, Nov 2019)

“Until 2015 Aberdeenshire’s housing market had experienced a long period of growth, with high demand and steadily increasing house prices, resulting in a steady supply of new housing being delivered annually. Since the fall in oil price in 2014 and the resulting economic downturn, house prices have also fallen, and the rate of house building has decreased. The challenge now is to ensure that land allocations in the LDP continue to come forward in a less certain market to maintain adequate housing land supply.” (Aberdeenshire Council’s Monitoring Report, Nov 2019)

High demand for housing and increasing house prices before 2015 is no longer relevant to the current economic climate, especially in relation to economic recovery following Covid-19, the low oil price and Brexit. It could also be argued that there is an adequate housing land supply already, as shown in the 2019 land audit. The maintenance of an adequate supply should not include the destruction of green belt.

“The village was originally located along Manse Road.”

This is factually incorrect within the Main Issues Report. The village was not originally located along Manse Road, and this can’t be used to create the “*settlement’s sense of place*” closer to desired sites OP1 and OP2. It appears from this statement that the proposed Local Development Plan wants to favour that side of the village as a central hub, which in turn would allow for mass development.

Planning documents claim that there is no “sense of place” and “lack of identity” in our village, but this diminishes the experience of living here whilst equally appearing to

market the Green Belt for development. Potterton has always been a community and the residents' value it and take pride in it.

Lack of Community Engagement

Due to the Covid-19 pandemic, there has not been a public meeting with regards to the changes to be made to the village, but nevertheless, the community deserves more engagement than has been made accessible to them. Especially when this massive shift in the Local Development Plan for our area could be made to irrevocably change the future of this village.

In a recent LDP mail update from Aberdeenshire Council, it was noted that there was an opportunity for an Officer from the Policy Team to attend a Community Council meeting virtually, however this has not been available to the residents in Potterton.

In a recent newspaper article (Evening Express 27th July 2020), it has been claimed by the development direct for Barrat, Chris Ross "that "extensive talks" had been staged with locals about the proposals." (Evening Express) I can confirm as a local I have had NOT been contacted by the developer. Within the same article, an Aberdeenshire Council spokesperson said, "Part of the current engagement included written notice to 12,000 premises with regards to the proposed allocations in the plan." Again, many residents have NOT seen this written notice.

Social Exclusion due to lack of access to technology

The Covid-19 pandemic has made the information completely inaccessible to many members of the community who either have no access to appropriate technology or skills to access that technology. This is not apathy towards planning and development, but rather a lack of access to information.
