**Subject:** Proposed Traveller site for Blackdog

Section 8, paragraph H5.3

This should be relocated as there is a lack of employment, education and other other community infrastructure in the immediate area.

The Gypsy / traveller site is included within the proposed local development plan April 2020 , appendix 7c, page 407 , OP1

This should not go ahead, the people living in the village do not want it.  
There's no access currently for any shops , or education for any of the residents other than travelling to Bridge of Don. Facilities in the area are not suitable, no emergency services near by.

There is a lack of public transport in the area

It doesn't meet any of the requirements set out for this facility.
