

PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

Please use this form to make comments on the Proposed Aberdeenshire Local Development Plan 2020. If you are making comments about more than one topic it would be very helpful if you could fill in a **separate response form for each issue you wish to raise**.

Please email or send the form to reach us by 31 July 2020 at the following address:

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Delete the contribution of 10 houses to meeting the strategic allowances from Table 3 of Appendix 6 of the LDP in respect of the OP1 allocation in Logie Coldstone. Identify an alternative effective allocation in the Local Growth Area of the Rural HMA or, if marketability constraints preclude the identification of such an alternative allocation, in the Local Growth Area of the adjacent Aberdeen HMA where marketability constraints are not an issue.

Reason for change:

This site came into the housing land audit in 2011 with a capacity of 25 houses which was clearly excessive given the extremely modest size of the existing settlement.

In the past decade it has attracted no developer interest and there has been no planning application submitted to test the technical viability of the site. The site seems to have increased in area compared to the allocation in the current adopted LDP and appears excessive in size for just 10 houses. The north eastern boundary of the site does not appear to follow any natural features on the ground.

The suggestion in the settlement statement that the site may be suitable for self build plots is compromised by the need for any developer to deliver the infrastructure necessary to serve the entire development. Given that there has been no evidence of demand in the settlement sufficient to stimulate development on the existing allocation it is unlikely that self build development will be economically viable on the basis suggested in the settlement statement.

The site was constrained at the base date of the LDP and there are insufficient grounds to promote it as an effective allocation in the emerging local development plan and no confidence that it can or will deliver housing sufficient to satisfy SPP.
