PROPOSED ABERDEENSHIRE LOCAL DEVELOPMENT PLAN 2020 RESPONSE FORM

As part of the production of the Local Development Plan, a 'Main Issues Report' was published in January 2019. The responses from these consultations have helped to inform the content of the Proposed Local Development Plan ("the Proposed Plan").

The Aberdeenshire Local Development Plan will direct decision-making on land-use planning issues and planning applications in Aberdeenshire for the 10-year period from 2021 to 2031. The Proposed Plan was agreed by Aberdeenshire Council in March 2020 as the settled view of the Council. However, the Proposed Plan will be subjected to an independent examination and is now open for public comment.

This is your opportunity to tell us if anything should be changed in the Proposed Plan, and why.

When writing a response to the Proposed Plan it is important to specifically state the modification(s) that you would wish to see to the Plan.

This is the only remaining opportunity to comment on the Proposed Plan. The reasons for any requested changes will be analysed and reported to Scottish Ministers. They will then appoint a person known as a Reporter to conduct a public examination of the Proposed Plan, focusing particularly on any unresolved issues and the changes sought.

Ministers expect representations (or responses) to be concise (no more than 2000 words) and accompanied by limited supporting documents. It is important to ensure that all of the information that you wish to be considered is submitted during this consultation period as there is no further opportunity to provide information, unless specifically asked.

Please email comments to ldp@aberdeenshire.gov.uk or send this form to reach us by 31 July 2020*.

We recommend that you keep a copy of your representation for your own records.

**UPDATE 16 June 2020: Consultation period was extended from 17 July 2020 for a further two-week period.*

Please use this form to make comments on the Proposed Aberdeenshire Local Development Plan 2020. If you are making comments about more than one topic it would be very helpful if you could fill in a **separate response form for each issue you wish to raise**.

Please email or send the form to reach us by 31 July 2020 at the following address:

YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

Delete the contribution of 16 houses from the OP1 allocation in Roadside of Kinneff towards the Local Growth RHMA strategic allowances (Table 3, Appendix 6). Identify an alternative effective allocation in the Local Growth Area of the Rural HMA or, if marketability constraints preclude the identification of such an allocation, in the Local Growth Area of the adjacent Aberdeen HMA where marketability constraints are not an issue.

Reason for change:

This allocation came into the audit in 2012 as a development of two phases each with a capacity of 15 houses. The first phase was due to become effective on or before the 31st December 2016.

However, in 1st January 2017 housing land audit the first phase of the development together with the second phase of the development were both logged as Ownership constrained. In the 2019 housing land audit the remains constrained and is not expected to deliver any housing until the post 2023 period at the earliest.

In terms of the first appearance of this allocation in the Aberdeenshire Local Development Plan : 2012, the site has failed to deliver any housing in the first or second plan periods. The plan indicated at that time that there was no capacity in the WWTP to accommodate development on the allocation. Scottish Water would have to initiate a growth project if and when the five criteria have been satisfied. It is also noted that mains reinforcement may be required.

That situation has not changed within the past 9 years and merely adding a further 16 houses to the existing constrained allocation does not remove that constraint or make it more likely that housing will be delivered. Indeed, the scale of the allocation is clearly excessive given the small number of existing houses in the settlement.

There is therefore no basis upon which the Planning Authority can genuinely express confidence that this proposed allocation can or will deliver housing in the plan period and any contribution to meeting the strategic allowances would be incompetent, unwarranted and at variance with the provisions of SPP.
