I wish to object to the proposed development plans for Potterton.

I have lived in Potterton for 20 years, the main reason I moved here was to take advantage of the lovely rural setting and the abundance of green space available. Potterton is a lovely small village with a real community spirit, I have raised my daughter here and found that everyone in the village looks out for each other, we run a real risk of losing this tight knit community as so many other villages have done due to the size of proposed development. This would be a tragedy not just to myself and the people of the village but indeed for Aberdeenshire as a whole.

Please also note my comments below:

1. Roads cannot cope with increased volume of vehicles.
2. Loss of green belt.
3. Sewage capabilities.
4. Additional pollution.
5. Loss of ancient woodland.

Your sincerely

Nicola Wilson
