Subject: LDP2021NN -potterton

Hello,

I am emailing you to inform you I wish to object to the proposal for building OP1 and OP2 developments in Potterton. As a resident who chose to buy and live here because of its small family like country village, I do not agree with doubling the size of the village, nor do I agree with building on green belt land. As a young couple who hope to raise our children here - which many schools locally are already over subscribed- I do not believe Potterton has the infrastructure or the amenities for all these new homes to accommodate the families it would bring. Potterton currently does not have the amenities for such an increase in size and the proposals do not reflect this. Having seen the housing market recently there is an excessive amount of new homes and existing homes already for sale - with more appearing every day and not selling - in the bridge of don and immediate surrounding areas without taking away further rural areas which thrive with wildlife to build more homes. I have serious concerns about the safety and security of the village. The village is a very close community with a lot of trust and team effort to keep it a lovely place to live. The disruption of the road Infrastructure and sudden increase in village size will remove that community and secure feel. I am concerned that we will also be living in a construction site for many years to come.

I hope you are able to read over my objection and concerns and take them on board.

Thanks Kelsey
