YOUR COMMENTS

Please provide us with your comments below. We will summarise comments and in our analysis will consider every point that is made. Once we have done this we will write back to you with Aberdeenshire Council's views on the submissions made. We will publish your name as the author of the comment, but will not make your address public.

Modification that you wish to see (please make specific reference to the section of the Proposed Plan you wish to see modified if possible, for example Section 9, paragraph E1.1):

I would like to object to the Proposed Local Development Plan, specifically OP1 and OP2. This destruction of greenbelt would lead to the potential mass development of the village of Potterton. I do not wish to see our community devastated by the construction of unwanted/unnecessary housing development

Reason for change:

- * Uncertain demand for additional housing in the area due to the decline in the Oil/Gas industry and the excessive construction already planned for the old AECG site in Bridge of Don (\pm 500 houses)
- * Insufficient infrastructure to support the burden of this development. Poor/small roads along with insufficient waste water/sewage capability in the area which is within a SEPA Flood Risk Area
- * Inadequate education capacity within a reasonable distance for the increase in demand
- * No bus service to any of the Industrial Areas around Aberdeen City; adding to congestion on local dangerous roads and accident blackspot at the Blackdog AWR Junction
